MUZZY BROTHERS' ANNUAL Catalogue : of : Seeds

1909

Novelties and Specialties for 1909

The novelties and specialties annually offered by seedmen should be of great interest to progressive gardeners, no matter how many old favorites they may have among the standard varieties. We are careful, in this department, to try to offer nothing but varieties, not only of real merit, but those that are an advance in quality or productiveness over the standard varieties that are already well known.

Golden Cluster Bean.

KENTUCKY WONDER OR OLD HOMESTEAD BEAN.

The most popular of the pole varieties, and should be in every garden where beans are planted. It grows luxuriantly and bears for a long period. Pods are very long, very fleshy, and deeply creased or saddle-backed, green in color, and stringless. Seed light brown. Pt. 20c.; qt. 35c.; 4 qt. \$1.25; 8 qt. \$2.00.

EARLY GOLDEN CLUSTER WAX BEAN.

A well-known, early and very beautiful sort. Vines large, strong-growing, vigorous, hardy; leaflets large, light green, crimped; flowers yellowish-white; pods 6 to 8 inches long, borne in abundant clusters, each containing from 3 to 6 pods, which are broad, very thick and fleshy, deeply creased along the edge to which the beans are attached; much curved; color bright golden yellow. **Of the very best quality, and staying in condition for use a long time.** The Beans are also excellent shelled green. We recommend this variety as furnishing the largest and handsomest pods of any sort in the list.

Pt., 20c.; qt., 35c.; 4 qts., \$1.25; 8 qts., \$2.00.

WHITLOOF CHICORY.

A bushy, crisp, winter vegetable which can be grown in every home. Sometimes called French Endive. This makes one of the most delicious of all salads. It is also an excellent dish boiled. The seed is planted in May or June in the open ground and in the fall the roots are dug. The roots are then planted in earth in a dark, cool place in the cellar or under greenhouse bench. Finely blanched crisp leaves are then thrown out and, when cut, new leaves form. The roots keep a long time and may be planted so that a fresh and delicious salad may be had all winter long. Price, pkt. 10c., oz. 20c., 1/4 lb. 40c.

Whitloof Chicory.

Kentucky Wonder Bean.

COPYRIGHT 1889.

A. BLANC.

Extra Early Sunlight Potato.

A New Early MAINE Potato.

As reported by the Ohio Agricultural Experiment Station.

EXTRA EARLY SUNLIGHT. Plants 18 to 22 inches tall; vigorous; stalks short, very heavy, few in hill, much branched; foliage open; leaflets mostly large, medium dark green; bloom white. Tubers grow medium depth, close together, quite uniformly 5 or 6 large in hill, number of small ones variable.

Tubers medium size; medium length, oval or oblong, some Tubers slightly flattened, some taper toward blossom end; color white; general appearance good; eyes medium size; shallow; a good keeper and a very clean potato. Yielded at the rate of over 200 bushels per acre the one season tested. As name indicates, an extra early sort, worthy for trial for market and home use.

T. W. Wood & Sons, Richmond, Va., the well known and reliable Seedsmen of the South have this to say of the above variety:

"A new potato which is proving to be a money maker for truckers wherever planted. It is extra early in maturity, somewhat similar to the Rose in shape, and a white potato of most excellent cooking qualities. Makes a very attractive appearance when dug, and sells at the highest price in our markets; shippers obtaining much higher prices for the Sunlight than for ordinary kinds on account of its appearance and quality. Wherever it is grown, it speedily becomes very popular, and truckers and gardeners are planting it on the largest scale."

Price per Bbl. on application.

A NEW EARLY PEA.

"PRIMO."

A grand acquisition, the result of a cross between the well-known varieties, Gradus and Early William.

The distinctive merits of this grand Pea are its extreme earliness combined with exceptional quality.

The Pods are as large as Gradus, and equal in quality to this popular variety, but with the advantage of being hardier, and much more prolific.

The pods are very handsome, mostly in pairs, containing nine large peas of delicious flavor.

The haulm is strong and robust, growing to about three feet in height.

As an early Pea for market purposes, this latest introduction will prove a great acquisition both for earliness and productiveness.

Being more hardy than Gradus and other early varieties, it can be sown earlier, and it is, moreover, **absolutely fixed in character.** Price 25 cts. pkg.

Livingston's New Coreless Tomato.

"In shape it is almost round and bright red in color. It is immensely productive, bearing clusters of four to seven fruits 6 to 8 inches apart along the stem; fruits all of marketable size, many weighing 12 to 15 ounces. Free from green core; ripens all over at once. A splendid slicing sort." Pkt. 15 cts., oz. 60 cts., $\frac{1}{4}$ lb. \$2.00.

Livingston's New Coreless Tomato.

THE MUZZY LAWN GRASS SEED.

IT IS USED AND PRAISED BY THOUSANDS.

Producing a Perfect and Permanent Sward of Luxuriant Richness; and is Equally Valuable for Renovating Imperfect and Worn-out Lawns.

THERE is nothing more attractive than a well-designed house surrounded by artistically treated grounds; and of the essential features of home grounds none is so important as a beautiful lawn—the rich, green, velvety turf being the heart and life of all. A lawn may be formed by laying turf or by sowing seed. The gain in time by sodding is so slight as to scarcely be worthy of consideration, while the results obtained by both methods are not to be compared. Sods in dry weather leave crevices about which the grass dies out; then the grasses that compose a pasture or roadside sod (generally the kind used for “sodding” lawns) are not at all the best sorts for forming a perfect lawn, and will not give a smooth, elegant surface.

THE MUZZY FINE MIXED

Lawn Grass Seed is, relatively, the cheapest seed offered, because, being freed from chaff, it weighs 20 lbs. per measured bushel, while other lawn grass mixtures average only 14 lbs. to the bushel. It is also the **Purest** and **Cleanest** lawn grass seed, being absolutely free from weed seeds.

15c. qt.; 25c. 2 qts.; 50c. 4 qts.; \$3.00 bu.

MUZZY “SHADY NOOK” LAWN GRASS SEED.

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine, dwarf-growing, evergreen varieties, which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees are frequently “sour,” and if the drainage is defective it is apt to be covered with moss and coarse bog grasses. In such cases an applica-

tion of slacked lime, at the rate of one bushel to each thousand square feet, or forty bushels to the acre, is an excellent corrective and sweetener, but the moss should be first removed by the use of a sharp rake. Price, 25c. qt.; 85c. for 4 qts.; \$1.50 pk.; \$5.00 bus. of 20 lbs.

MUZZY “SPECIAL GRASS SEED MIXTURE”

For Golf, Croquet, Cricket, Polo and Ball Grounds.

This is a special blend of deep-rooting, fine-leaved, turf-forming grasses, especially suited for cricket grounds, polo grounds, ball grounds, etc. This mixture forms a thick, strong, enduring turf that will stand any amount of hard usage without showing wear and tear. It grows quickly, and if soil and conditions are at all favorable, with attention to rolling and mowing, should be ready for hard use in eight weeks from sowing. 25c. 1 qt.; 40c. 2 qts.; 75c. 4 qts.; \$1.25 8 qts.; \$4.50 1 bus.

Muzzy Brothers give no warranty, express or implied, as to the description, quality, productiveness, or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

German, Artichoke; French, Artichaut; Spanish, Albachofa.

The seeds should be sown early in the spring, in drills an inch and a half deep, and one foot apart. The next spring transplant to permanent beds, in rows or hills three feet apart and two feet between the plants. Plant in a deep, rich, moist loam, and the plants should be protected in winter by a covering of leaves or coarse manure. A bed will continue in bearing for several years.

Tubers	3 lbs. by mail for \$1.00	Per qt. \$0 20	Per peck \$1 00
---------------------	---------------------------	----------------	-----------------

German, Spargel; French, Asperge; Spanish, Esparrago.

Sow the seed early in spring, in drills 15 inches apart, and about a dozen to the foot in the drill; keep the soil mellow and free from weeds during the summer, and in the succeeding spring transplant to permanent beds, which should be done in the following manner as described by a cultivator of Oyster Bay Asparagus.

Plant on sand soil. To grow Asparagus in perfection, the soil need not necessarily be richer than it must be to produce a good crop of Corn. Some experiments have shown that by heavily manuring the crop cannot be made permanently greater than by moderate dressings. It is not desirable to plant them out very early; more plants will fail to grow than when the planting is deferred until the soil is dry and warm.

"In planting for private use, set out in rows two feet apart, and allow twelve inches in the row.. Set the plants at least six inches below the surface. For market on a large scale, set four feet apart one way and two the other which will allow the use of a horse and cultivator to keep the weeds under.

“If the plot is made sufficiently rich when the plants are set, they will make a large growth the first summer, and the shoots may be cut from them the succeeding year. Any well treated plot ought to produce a moderate crop the second year after planting. Remove the dead brush late in the fall or early in the spring of each year, and apply broadcast a dressing of manure. A plot of Asparagus will reach its maturity in its fifth or sixth year, after that the size of the shoots will diminish, but their numbers will increase.”

Columbia White Asparagus.

German, Gartenbohne; French, Fève de Marais; Spanish, Hava.

	Per qt.	Per peck
Early Mazagan , prolific, very early.....	\$0 30	\$1 50
Broad Windsor	3\$	1 50
Sword Long-Pod	3\$	1 50

This class is very handy and should be planted as soon as the soil is in good state in the spring. Plant four inches apart and two inches deep, in drills four feet apart. To insure well-filled pods, pinch off the top as soon as the lower pods begin to set.

German, Bushbohnen; French, Haricots nains; Spanish, Habichuelas enanas.

	Per qt.	½ pk.	Per pk.	Per bu.
Bountiful , earliest variety, stringless, flat pod, prolific	\$0 30	\$0 85	\$1 50	\$5 00
Muzzy's Stringless Green Pod , the best stringless bean grown. Ten days to two weeks earlier than Valentine; pods full and fleshy, extremely crisp and absolutely stringless. Very productive.....	30	85	1 50	5 50
Livingston's ROUND POD Six-Weeks Bean	30	80	1 50	5 00
Early Valentine , early, productive, tender, and of excellent flavor.....	25	75	1 25	4 00
Early Mohawk , very productive and of good quality.....	35	1 25	2 00	7 00
Long Yellow Six-Weeks , early, excellent variety for general crop.....	25	75	1 25	4 50
Ne Plus Ultra , extra early variety for forcing, green flat pods.....	30	85	1 50	5 50

BEANS—Bush or Snap Varieties.—Continued.

Burpee's Bush
Lima Beans.

	Per qt.	½ pk.	Per pk.	Per bu.
Extra Early Refugee, similar to late Refugee, pods two weeks earlier.....	\$0 25	\$0 75	\$1 25	\$4 00
Refugee, or Thousand to One, very early and prolific. The pods are round, full, stringless and of fine quality.....	25	75	1 25	4 00
Burpee's Bush Lima—Beans as large as Large Pole Lima; stout growth, branches vigorously, bearing 50 to 200 large pods well filled with very large beans	35	1 25	2 00	9 00
Long White Kidney, excellent as a shell bean, green or ripe	25	75	1 25	4 25
White Marrowfat, extensively grown for sale in the dry state	25	75	1 25	4 25
Golden Refugee, pods round and light color.....	30	85	1 50	5 00
Dwarf White Lima	35	1 25	2 00	7 00

DWARF WAX VARIETIES.

Refugee Wax, good for early or late, immense yielder	30	85	1 50	5 00
Golden Eyed Wax, very early, prolific, free from rust.....	30	85	1 50	5 00
Thornburn's Valentine Wax, improved extra early Valentine, round wax pods	30	1 00	1 50	5 00
Wardwell's New Dwarf Kidney Wax, extra early, long pods, very productive	30	85	1 50	5 00
Black Wax or Butter Improved, very early and prolific. The pods are round round, full, stringless; of very fine quality.....	30	85	1 50	5 00
Davis' White Wax, beans pure white pods, yellow, tender, rich.....	30	85	1 50	5 50
Golden Wax. This valuable variety is about ten days earlier than the Black Wax, pods large, long, brittle, entirely stringless	30	85	1 50	5 00

Muzzy
Stringless
Green Pod

DWARF WAX VARIETIES—Continued.

Yosemite Mammoth Wax , the largest pods of all Wax Varieties	30	1 00	1 50	5 00
Flagolet Wax Red , pods large and very tender.....	30	1 00	1 50	5 00
Algerian Wax , very productive, round pods	30	1 00	1 75	6 00
Detroit Wax , similar to Golden Wax, lest rust.....	30	85	1 50	5 50

BEANS—Pole or Running Varieties.

German, Slaugenbohlen; French, Haricots a rames; Spanish, Judlos.

		Per qt. ½ pk.	Per pk.	Per bu.
Challenger Lima , potato variety, five and six in a pod		\$0 35	\$1 25	\$2 00
King of Garden Lima , vigorous in growth and immensely productive, pods large, numerous and well filled and beans of an enormous size. Generally grown for main crop.....	30	1 00	1 75	6 50
New Early Jersey , very early.....	35	1 25	2 00	7 50
Large White Lima , a greatly esteemed variety.....	30	1 00	1 75	6 50
Drer's Improved Lima .. This variety has proved to be a decided acquisition	35	1 25	1 75	7 00
Kentucky Wonder , or Old Homestead Extra Early , pods round, long, tender and good flavor, very productive.....	35	1 25	2 00	8 00
New Lazy Wife , long, green pods, good quality, white beans.....	35	1 25	2 00	8 00
Dutch Case Knife , a very productive variety, and one of the earliest.....	30	1 00	1 75	6 00
Horticultural or Speckled Cranberry , a popular variety for private use, equally serviceable in the green state or when shelled	30	1 00	1 75	6 00
Scarlet Runner , beautiful scarlet flowers; for ornamental and table use....	30	1 00	1 75	6 00
Black Wax , pods long, thick and fleshy; pale yellow color; waxy appearance; very productive and tender; excellent as a snap or shelled green...	30	1 00	1 75	6 50
Early Golden Cluster , bright yellow pods, stringless, in clusters.....	35	1 25	2 00	8 00
Yard Long French , pods sometimes grow from 2 to 3 ft. long, are very slender like a pipe stem, should be grown on pea brush. Pkg. of 1 gill 25c.				

Snow Bush sorts in drills about two feet apart, and drop the beans about three inches apart in the drills; cover two inches or less; for a succession, sow at intervals of two weeks. Lima beans should not be planted until settled warm weather; make rich hills, four feet apart each way; set a pole eight or ten feet high in each; press the beans into the soil eye down, six or eight to each pole, and when they are well up, thin out to four. A quart of Limas is sufficient for 75 or 80 hills, and a quart of Bush Beans will sow a row 100 feet long.

Bean Poles, made from Red Hearted Cedar, price 10 cents each. Discount on quantities.

BORAGE.

German, Borritch; French, Bourrache; Spanish, Berraja. Per oz. ¼ lb. Per lb.

Used as a pot herb; also as a salad, or can be boiled, and alos for garnishing, but chiefly required for claret cups and other cooling drinks. Bees are very partial to the flower.....	\$0 10	\$0 25	\$0 80
---	--------	--------	--------

BEETS.

German, Runkelrub; French, Bourrache; Spanish, Remolacha.

**Early Egyptian Beet.**

	Per oz.	¼ lb.	Per lb.
Detroit Dark Red , a splendid beet for market or home use, of a deep red color, tender and of delicate flavor.....	\$0 10	\$0 20	\$0 50
Dark Red Egyptian , the earliest beet in cultivation, color deep crimson; of excellent quality.....	10	15	40
Extra Early Eclipse , very early, good size.....	10	20	40
Early Flat Bassano , chiefly valuable for its earliness.....	10	15	40
Early Blood Turnip , standard Early sort, an excellent variety.....	10	20	60
Edmand , market garden variety, uniform shape, dark.....	10	20	40
Dewing's Blood Turnip , of fine form and flavor.....	10	15	40
Bastian's Blood Turnip	10	20	60
Long Smooth Blood Red , an excellent late variety.....	10	20	60
Swiss Chard , used for its leaves, which are cooked as spinach.....	10	20	50

BEETS—Continued.

MANGEL-WURZEL AND SUGAR.

Varieties used for feeding stock. Sow 6 lbs. per acre.

	Per oz.	¼ lb.	Per lb.
Mammoth Red Mangel-Wurzel, producing roots of mammoth size, very regular, and with a small top. 10 lbs. and over, 25c lb.....	\$0 10	\$0 15	\$0 30
Yellow Globe Mangel-Wurzel, roots very large and globular, 10 lbs. 25c.....	10	15	25
Long Yellow Mangel-Wurzel, good for general crop. 10 lbs. at 25c.....	10	15	30
Golden Tankard Mangel-Wurzel, a new and very valuable variety of fine form and of sweet flavor, bright yellow in color, when cut it shows the interior ring, similar to most varieties of garden beet. 10 lbs. at 30c	10	15	35
White Silesian Sugar Beet, extensively grown for feeding stock and the manufacture of sugar.....	10	15	35
Vilmorin's Improved Sugar Beet, an improved variety	10	15	35
Lane's Improved Sugar Beet, improved variety of the French Sugar Beet, obtained by careful selection in this country. 10 lbs. and over 25c.....	10	15	30

A rich, deep open soil is the best suited to the culture of Beets; fresh manure is undesirable, but land that has been well manured the previous year is highly suitable. For an early supply sow in spring as soon as the ground becomes fit to work, in drills about one foot apart and two inches deep. For main crop sow the first week in May, and for winter use sow in June. When the plants have obtained three or four leaves, thin out, so that they may stand eight or nine inches apart. Keep free from weeds by hand weeding and hoeing. Those intended for winter use may be taken up in October, and stored in dry sand, in the cellar or outhouse. Before storing leaves and fibres must be trimmed off, but care must be taken not to bruise the main root.

BRUSSELS SPROUTS.

German, Sprossen-Kohl; French Chou de Bruxells; Spanish, Breza de Brusels.

	Per oz.	¼ lb.	Per lb.
Improved Seed, (French).....	\$0 15	\$0 40	\$1 25
Dwarf Improved, a variety producing compact spouts of excellent quality.....	20	60	2 00

A tender delicious vegetable. The plant grows two or three feet high, and produces from the sides of the stalk numerous little sprouts, one or two inches in diameter, resembling cabbage. The leaves, which look like a Savoy, should be broken down in the fall, to give the little cabbages room to grow. They are very tender and sweet after early frosts. Sow early in hot-beds, or in seed-beds in May, transplant and cultivate like cabbage.

BROCCOLI.

German, Spragel Kohl; French, Chou Brocoli; Spanish, Broculi.

	Per oz.	¼ lb.	Per lb.
Early White, heads medium size, compact, creamy white color, most certain to head	\$0 35	\$1 00	\$3 00
Purple Cape, differing from the preceding color, greenish purple.....	35	1 00	3 50
Walcheren, a valuable variety, with very large, firm heads.....	40	1 25	4 00
Mammoth White.....	35	1 00	3 00

A favorite European vegetable, nearly allied to the Cauliflower, but more hardy and surer to head; the seeds should be sown in this district in the early part of May, and transplanted in June, farther south the sowing should be delayed until June or July, and the transplanting accordingly from August to October. In parts of the country where the thermometer does not fall below 20 or 25 degrees, broccoli may be had in perfection from November until March. It succeeds best in a moist and rather cool atmosphere.

CABBAGE.

German, Kopfkohl; French, Chou; Spanish, Berza de reppollo.

	Per oz.	¼ lb.	Per lb.
Etames, early French variety, with pointed heads..	\$0 20	\$0 50	\$1 50
Express, very early, small solid heads.....	20	50	1 50
All Seasons, fine variety for second early or late growing; good size.....	20	60	2 00
Early Jersep Wakefield, the leading variety for market in the vicinity of New York; very early, of medium size, good quality, sure to head.....	25	75	2 50
Early Flat Dutch.. This is one of the best early cabbages in cultivation, producing large, compact heads from 10 to 12 pounds and upwards in weight and of excellent quality	20	60	2 00
Early Summer, a valuable early sort, resembling the Early Flat Dutch.....	20	60	2 00
Early Winnigstadt, heads large, one of the best for general use.....	15	40	1 25
Large York, larger and later than the Early York	15	35	1 00
Fottler's Improved Brunswick. This is the very fine second early variety.....	20	60	2 00
Henderson's Succession, a second early and late variety, a sure header; seeds sown in March produce large heads in June	25	75	2 50

Danish Ball Head Cabbage.

CABBAGE—Continued.

Danish Ballhead , large, round, extremely solid heads; sweet flavor and crisp, tender texture. Sure header in dry as well as wet seasons. Nothing finer for the market gardener or private grower.....	\$0 25	\$0 75	\$2 50
Large Late Drumhead , an excellent fall and winter variety, grows to a large size, with round, compact heads.....	20	60	2 00
Large Late Flat Dutch , the most popular variety for late cultivation. Large solid heads, broad and flat on top, best to keep.....	20	60	2 00
Red Stone Head , used almost exclusively for pickling.....	25	75	2 50
Drumhead Savoy (American), the largest heading sort, of excellent flavor.....	25	75	2 50

For very early use plant in the autumn, from 10th to 25th September, in a seed-bed, and protect in cold frames during the winter, being careful to set them down to the first leaf. Transplant in the following springs as soon as the soil will admit. For autumn and winter use, plant in the seed-beds in May and early part of June, and when six inches high transplant into rich soil, two feet apart each way for the early varieties, and three by two and a half feet for the large winter varieties. To secure the best results, the soil should not be too dry, but should be thoroughly enriched, and the crop should be hoed at least once in ten days. Sow in heat early in spring, seed of the early kind for a second crop; also the late varieties for winter use.

Early Flat Dutch Cabbage.

CARROT.

German, Moehren; French, Carotte; Spanish, Zanah.

	Per oz.	¼ lb.	Per lb.
Early French Forcing , the earliest variety, valuable for forcing; root small and of fine flavor.....	\$0 10	\$0 25	\$0 75
Early Round Parisian , small, for frames or open ground	15	35	1 00
Early Scarlet Horn , an old and favorite sort, much esteemed for early summer..	10	20	75
Half Long Danvers , a variety intermediate in size and period of maturity between the preceding and the Long Orange.....	10	25	75
Half Long Stump Rooted Chantenay , like Nantes, broader shoulder.....	10	20	60
Half Long Pointed	10	20	75
Half Long Stump Guarande or Oxheart	10	20	75
Half Long Stump Nantes	10	25	75
Carentan , a new early variety without core. It is an excellent sort for forcing, or used as an early kind for planting in the open ground	15	30	1 00
Long Orange Improved , roots of large size, equally adapted for garden or farm culture	10	20	60
Large White Belgian , grown almost exclusively for stock	10	20	50

Nantes Carrot.

The Carrot, like other root crops, delights in a sandy loam, deeply tilled. It should never be sown on newly manured ground as forked roots are sure to be the result. It is best to sow on ground that has been well manured the previous year for some other crop such as Celery, Potatoes, Onions or Peas, but avoid such crop as Cabbage and Turnips, or any of the tap rooted sections. For early or main crops sow the latter part of April; for later crops they may be sown any time until the beginning of June. Sow in rows about 15 inches apart and half an inch deep, thinning out to three or four inches between the plants.

CAULIFLOWER.

German, Blumen-Kohl; French, Chou-fleur; Spanish, Coliflor.

	Per pkt.	Per oz.	¼ lb.	Per lb.
Extra Early Dwarf Erfurt , short stem; fine.....	\$0 20	\$2 25		
Extra Early Paris . This is one of the earliest and best varieties, heads large, white and compact, of fine quality.....	05	60	\$1 75	\$6 00
Early Snowball , admirable for forcing, very solid, pure white heads.....	15	2 25		
Large Early Dwarf Erfurt , the earliest and best of all varieties for forcing...	25	2 25		

Snowball Cauliflower.

properly hardened off, they are seldom injured by being planted out too early.

CELERY.

German, Seleri; French, Celerei; Spanish, Apio.

	Per oz.	¼ lb.	Per lb.
Thorburn's Fin de Siecle.....	\$0 20	\$0 60	\$2 00
Rose Ribbed Self-Blanching, a sort of Golden Self-Blanching; very choice.....	25	75	2 50
Evans' New Triumph, solid and crisp, fine nutty flavor	20	5\$	1 50
Giant Pascal, stalks very large, thick and crisp.....	20	50	1 50
Golden Self-Blanching, similar to White Plume, much larger in growth.....	35	1 00	3 50
Large Ribbed Kalamazoo, half dwarf White, solid.. ..	20	50	1 50
White Plume, requires very little banking.....	25	65	2 25
Pink Plume, similar to White Plume, stalks tinged with pink, good keeper.....	25	75	2 50
Golden Hart, one of the best for market or private use	20	50	1 50
Sandringham Dwarf White, Soup Celery, an imported variety of fine flavor; soup greens	20	50	1 50
Boston Market, an excellent dwarf, growing white variety	20	50	1 50
Covent Garden Rose, pink variety, good flavor.....	20	60	2 00
Celery Seed for Flavoring.....	05	10	25

The seeds may be sown in the open ground in April, as soon as the ground can be nicely worked. Sow about half an inch deep, and be careful to firmly press the soil over the seed; this should be done by treading over the rows with the feet after sowing; this prevents the air drying up the seed, which thereby loses its vitality and fails to germinate. Many valuable crops are annually lost by inattention to this important particular. After the seed is up, keep carefully clear of weeds until the time of planting. June and July; the crops may be shorn off once or twice before planting; this makes them "stocky" and they suffer less in being transplanted. After the ground has been well prepared, plant in rows from three to four feet apart, according to the variety, setting the plants about six inches apart and pressing the soil firmly about the roots; keep free from weeds until the plants are able to take care of themselves. Earth up gradually during their growth, keeping the leaf stalks close together, so that the soil does not get between them. The soil best suited for Celery is a rich, moist loam.

COLLARDS—Georgia Grown.

German, Blatter-Kohl; French, Chou Cabu; Spanish, Cabu.

Per oz. ¼ lb. Per lb.

Sow seeds as for Cabbage in June, July and August, for succession. Transplant when one month old in rows a foot apart each way and hoe often \$0 10 \$0 25 \$0 75.

Golden Self-Blanching Celery.

CHICORY.

German, Chicorie; French, Chicoree Saur;
Spanish, Escorola.

Common. This variety produces the "Barbe de Capucin," a salad much used in France. Sown in June the roots are transplanted in autumn into sand in a cellar; the shoots which will come up soon from the "Barbe de Capucin." 10-30-90.

Large Rooted. Used to mix with or a substitute for coffee. Cultivation same as the carrot.

Oz., 10c.; ¼ lb., 30c.; lb., 90c.

Wetlorf Chicory, or Freuet Endive. See Endive. 15 oz., 40c.; gr., \$1.25 lb.

Sweet Fodder, for ensilage.....	Price on application.					

Sweet Corn may be either sown in rows, four and a half feet apart, and the seeds planted at about eight inches in rows, or planted in the hills, at distances of three or four feet each way, according to the variety grown, or the richness of the soil in which it is planted. The taller the variety or the richer the soil, the greater should be the distance apart. The first plantings in this vicinity are made about the middle of May, and successive plantings every two or three weeks until the first week in July. In more southern latitudes planting is begun a month earlier and continues a month later.

Cucumbers.

Cucumbers succeed best in warm, moist, rich loamy ground. They should not be planted in the open air until there is a prospect of settled warm weather. Plant in hills about four feet apart each way. The hills should be previously prepared by mixing thoroughly with the soil in each a shovelfull of well rotted manure. When all danger from insects is past, thin out the plants, leaving three or four of the strongest to each hill. The fruit should be plucked when large enough, whether required for use or not, as if left to ripen on the veins, it destroys their productiveness.

English Frame Cucumber—Per pkt., 25 cts.
Improved Sion House. Telegraph. Giant of Arnstadt. Duke of Edinburgh. Gen. Grant. Long Gun. Crater's Tender and True. Swan Neck. Blue Gown.

These varieties are for growing in hotbeds, or in houses particularly constructed for forcing, so that a supply can be furnished during

the winter months, at which time the prices are very remunerative. Sow seeds in November, December or January, according to the time they are wanted for market, taking care to give plenty of air and water. It will be necessary to fertilize the pistillate flowers with the staminate in order to render the vines productive, as owing to the absence of insects they will not produce a crop under glass as in the ground, where bees and other insects have free access to the flowers.

Dandelion.

DANDELION.

German, Pardelblume; French, Pisse en-lit; Spanish, Armagon.

	Per oz.	¼ lb.	Per lb.
Thick Leaved	\$0 40	\$1 25	\$4 00
Best French	20	60	2 00
Endive Leaved, new	50	1 50	5 00

The Dandelion is much used for spring salads and resembles Endive. Sow the seed in May or June in drills half an inch deep and 12 inches apart. The plants will be ready for use the following spring.

ENDIVE or CHICORY.

German, Endevien; French, Chicoree; Spanish, Endivia.

	Per oz.	¼ lb.	Per lb.
Green Curled Winter , very hardy; leaves dark green tender and crisp.....	\$0 15	\$0 30	\$1 00
Broad-Leaved Batavian (Escarolle), chiefly used in soups and stews; requires to be tied up for blanching.....	15	30	1 00
Early White Curled (Self-Blanching), the best variety; grows to a large size; very large and tender.....	15	30	1 00
Moss Curled Early Summer , used for salads same as winter varieties.....	15	35	1 25
Witloff, or French Endive , new—See Specialties, Page 1.....	20	40	1 50

Endive is one of the best salads for fall and winter use. Sow for an early supply about the middle of April. As it is used mostly in the fall months, the main sowings are made in June and July, from which plantations are formed at one foot apart each way in August and September. It requires no special soil or manure, and after planting is kept clear of weeds until the plant has attained its full size, when the process of blanching begins. This is affected by gathering up the leaves and tying them by their tips in a conical form with bass matting. This excludes the light and air from the inner leaves, which in the course of three to six weeks, according to the temperature at the time, becomes blanched. Another and simpler method consists in covering up the plants as they grow, with slats or boards, which serves the same purpose by excluding the light as the tying up.

Green Curled Endive.

EGG PLANT.

German, Eiepfanze; French, Aupergine; Spanish, Bereinfiena.

New York Egg Plant.

	Per oz.	¼ lb.	Per lb.
Pearl White , very fine grain and well flavored.....	\$0 30	\$0 85	\$3 00
(Per pkt., 10c.)			
New York Improved , a superior market variety of large size and fine quality.....	40	1 00	3 75
Early Long Purple , early, of easy culture, hardy; productive; excellent for table....	20	60	2 00
Early Dwarf Purple , medium size...	35	85	3 00
Black Pekin , a fine variety, bearing large round, deep purple fruits, fine grained and of superior quality.....	35	1 00	3 50

The Egg Plant is a tender vegetable, and must not be planted out until the weather is warm and settled. Sow early in spring in hotbeds, or if they are not convenient, sufficient plants may be raised for a small garden by sowing a few seeds in common flower pots or in boxes in the house. Plant out early in June from two to three feet apart.

KALE.

German, Blatter-Kohl; French, Chou Vert; Spanish, Breton.

	Per oz.	¼ lb.	Per lb.
Siberian German Greens or "Sprouts." This variety is extensively used for early greens for which it is sown in the fall in rows one foot apart, and treated in the same manner as Spinach; it is ready for use in early spring. Sowing can also be made in spring	\$0 10	\$0 20	\$0 60
Dwarf Green Curled Scotch , a beautifully fringed, dwarf growing kind, with bright green leaves	10	20	60
Tall Green Curled Scotch , tall growing, very hardy variety, leaves a bright green, beautifully curled	10	20	60
Tall Brown German Curled , a very hardy and useful variety.	10	30	90
Dwarf Brown German Curled	10	30	1 00

Kale may be grown in almost any soil, but the richer it is the more abundant the product. Sow early in the spring, in prepared beds, covering the seeds thinly and evenly; transplant in June and treat in the same manner as for Cabbage. Of all the Cabbage tribe, this is the most tender and delicate, and would be much more extensively grown than it is if its excellent qualities were generally known. The varieties are all extremely hardy, and are best when touched by frost.

SEA-KALE.

German, Seekohl, Meerkohl; French, Crambe Maritime; Spanish, Breton de Mar.

	Per oz.	¼ lb.	Per lb.
Sea-Kale Seeds , very much like Celery.....	\$0 25	\$0 75	\$2 50

Cultivate for its blanched shoots, which are cooked in the same way as Asparagus. A supply may be had all winter by planting the roots closely in worm cellar before frost. Sow one inch deep in drills two feet apart; thin out to six inches, and the next spring plant in hills three feet apart, three plants in each.

KOHL-RABI.

German, Kohl Rabi; French, Chou Rave; Spanish, Colinabo.

	Per oz.	¼ lb.	Per lb.
Early White Vienna , flesh white and tender; best market sort; good for table use.....	\$0 20	\$0 60	\$2 00
Early Purple Vienna , differing from the above in color, which is of a bluish purple.....	20	60	2 00

Kohl-Rabi, or Turnip-stemmed Cabbage, is a vegetable that is not so much cultivated as it deserves to be. The stem above the ground swells into a bulb somewhat resembling a Turnip; this again is covered with leaves. The edible part is the bulb, which is dressed and served like turnip, and is very delicate and tender when young. It is very hardy, withstands severe draught, and is a good keeper. Cultivate the same as Cabbage, but in hoeing be careful not to throw dirt into the heart of the plant, or the bulb cannot form.

Early Vienna
Kohl-Rabi.

LEEK.

German, Lauch; French, Poireau; Spanish, Puerro.

	Per oz.	¼ lb.	Per lb.
Large American Flag , the kind mostly grown for market....	\$0 15	\$0 35	\$1 25
Large Carentan , a large-growing French variety or excellent quality	20	50	1 50
Large Rouen , very large and fine.....	15	35	1 25

The Leek is very hardy and easily cultivated; it succeeds best in a light, but well enriched soil. Sow as early in the spring as practicable, in drills one inch deep and one foot apart. When six or eight inches high they may be transplanted in rows ten inches apart each way, as deep as possible; that the neck, being covered, may be blanched. If fine Leeks are desired, the ground can hardly be made too rich.

MUSKMELO N—Continued.

Baltimore Market, oblong; orange flesh. Per oz., 15 cts.; qr. lb., 30c.; per lb., \$1.00

(4) **Delmonico**, oval, deeply netted; orange flesh. Per oz., 15 cts.; qr. lb., 30 cts.; per lb., \$1.00.

Orange Christina, very clear, excellent sort; green, with yellow flesh. Per oz., 20 cts.; qr. lb., 50 cts.; per lb., \$1.50.

Bay View, a new green-flesh variety of large size and superior quality. Per oz., 15 cts.; qr. lb., 35 cts.; per lb., \$1.25.

Rocky Ford Muskmelons.

Per oz. ¼ lb. Per lb.

(1) Jenny Lind , a very early kind, of small size, but delicious flavor.....	\$0 10	\$0 30	\$1 00
White Japan , size medium and nearly round; skin cream white and very thin; flesh pale green; early and sweet.....	10	30	1 00
(2) Long Yellow Cantalope , yellow flesh; suitable for the market	15	30	1 00
Pomegranate , for perfume. Not edible.....	20	50	1 50
Rocky Ford , very sweet; fine flavored, small and oblong	10	30	1 00

Melons thrive best in a moderately enriched live soil; the hills should be six feet apart each way. Previous to planting incorporate well with the soil in each hill a couple of shovelfuls of thoroughly rotted manure; plant twelve or fifteen seeds in each hill early in May, and when well up, thin out to three or four of the most promising. Pinch off the leading shoots as the growth becomes too luxuriant, and if the fruit sets too numerously, thin out when young, which will increase the size of those remaining, and cause them to ripen quicker.

Mountain Sweet.

MELON, WATER.

German, Wassermelone; French, Melon d' Eau; Spanish, Zaudia.

	Per oz.	¼ lb.	Per lb.
Ruby Gold , flesh yellow and red.....	\$0 10	\$0 25	\$0 75
Kolb's Gem , nearly round, dark green.....	10	20	60
Seminole , a new early variety. Long striped sort.....	10	20	60
Pride of Georgia , dark green, oval in shape; crisp and sweet; very large.....	10	20	60
Scaly Bark , thin rind; flesh light crimson.....	10	20	60
Mountain Sweet , one of the very best for general culture; color dark green; and rind thin; flesh scarlet; solid, very sweet and delicious	10	20	50
Black Spanish , shape round, rather small; skin dark green; flesh red, sweet, rich..	10	20	60

MELON, WATER—Continued.

Phinney's Early, flesh deep red, of a very superior quality; a valuable early market variety	\$0 10	\$0 20	\$0 60
Cuban Queen, solid and heavy.....	10	20	60
Ice Cream (white seeded), fruit of medium size, nearly round; skin pale green; rind thin; flesh scarlet, solid, crisp, excellent.....	10	20	60
Rattlesnake, very large, striped, red flesh variety.....	10	20	60
Citron, round handsome fruit of small size, and used in the making of sweetmeats and preserves	10	25	80
Volga, pale green; red flesh.....	10	25	75
Mammoth Iron-Clad, long and large; thin skin, deep red flesh.....	10	20	60
The "Boss," oblong; dark green.....	10	20	60

Plant in hills directed for Muskmelons, giving them more room, as their vines extend much farther. If they are wanted of a large-size, three or four melons to each plant will be sufficient, and when only one is allowed to grow from each plant they will grow to an immense size.

MUSTARD.

German, Senf; French, Moutarde; Spanish, Mostaga.

	Per oz.	¼ lb.	Per lb.
White London, best of salads.....	\$0 05	\$0 10	\$0 25
Black, used for cooking and for salads.....	05	10	25

Mustard in the green state is refreshing salad, mixed with Cress, Lettuce, or other salad plants. It is necessary to make frequent sowing of it, as it should be cut and used in a very young state, even before the first rough leaf has appeared. The seed should be sown thickly in light soil, the surface of which should be made very smooth. The seed should be pressed into the soil with the back of a clean spade, and should then be watered through the fine rose of a watering pot, without having any soil placed upon it; but the bed should be covered a few days with a piece of cloth or mat, and in the course of six or eight days the Mustard will be fit for use, and should be cut close to the surface of the soil with a sharp knife; and no soil having been placed over the seeds, it will be found clean and free from grit.

MUSHROOMS.

German, Chimpignonbrut; French, Champignon; Spanish, Hongo.

Imported English Spawn.....	15c. per lb.; 10 lbs., \$1.00; 100 lbs. \$9.00
Imported French Spawn.....	30c. lb.; 10 lbs., \$2.50

Mushrooms should be grown either in a building especially erected for the purpose or some shed, stable or cellar, where a temperature of from 40 to 60 degrees can be kept up in winter. To every barrow load of fresh horse dropping add about the same weight of loam or soil of any kind that has not been manured. Turn the heap every day, so that it is not allowed to heat violently, until you have quantity enough to form a bed of dimensions required. Be careful that your heap is under cover, so that it cannot possibly get wet.

The most convenient size for bed is from three to four feet long and eight inches deep.

Prepare the mixture of loam and manure, making the bed in layers, and pounding down each with the back of a spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees. make holes in the bed about a foot apart each way into which put pieces of spawn, two or three inches in diameter; fill up the holes with the compact and at the expiration of a week or ten days the spawn will have thoroughly diffused itself through the bed. Now spread a layer of fresh soil over the heap to the depth of two inches, firm it down moderately and cover with three or four inches of hay or straw. Examine the bed often to see that it does not get dry. When water is given it should be at a temperature of about 100 degrees.

Mushrooms.

NASTURTIUM.

German, Nastrutian; French, Capusine; Spanish, Maranuela.

	Per oz.	¼ lb.	Per lb.
Tall Scarlet	\$0 15	\$0 30	\$0 75
Tall Yellow.....	15	30	75
Tall Nasturtium, Mixed.....	10	25	75
Dwarf Nasturtium, Mixed.....	10	25	75

Cultivate both for use and ornament; the green seed pods preserved in vinegar make an excellent pickle. The young leaves are also useful in salads. Its beautiful scarlet and orange-colored flowers, which appear freely all summer, add a charm to the garden.

ONION.

German, Zweibel; French, Wignon; Spanish, Cebolla.

	Per oz.	¼ lb.	Per lb.
Early Red, flat; about ten days earlier than the Large Red, and not quite so large	\$0 20	\$0 45	\$1 75
Large Red Wethersfield, the staple variety of the Eastern onion growers; of large size; deep in color, and a good keeper.....	15	50	1 75
Yellow Globe Danvers, an excellent variety; mild flavor and very productive; ripens early and a good keeper	15	50	1 50
Prizetaker, large yellow globe-shaped, extra fine.....	20	60	2 00
White Portugal, or Silver Skin, a handsome onion of mild flavor; extensively grown for pickling	20	75	2 50
Griswold's Medium Early Red Globe, about 2 weeks earlier than Southport Red Globe.....	20	75	2 50
Southport Red Globe, similar to the Large Red in color and flavor, but quite distinct in form, being nearly globular	20	60	2 00
Southport White Globe, form nearly ovoid, symmetrical, keeps well, is an excellent variety.....	30	1 00	3 00
Southport Yellow Globe, same as above, except in color.....	20	65	2 25
White Flat Bermuda, very early	35	1 00	3 50
Red Flat Bermuda, very early....	15	50	1 50

Yellow Globe Danvers Onions.

ITALIAN VARIETIES.

	Per oz.	¼ lb.	Per lb.
Adriatic Barletta, white, new variety, fully two weeks earlier than the queen.....	\$0 20	\$0 65	\$2 25
Early Queen, an excellent variety, very early, a good keeper and mild flavor.....	20	60	2 00
Giant Rocca, a splendid large variety from Naples, of globular shape, bright brown skin and delicate flavor.....	20	60	1 75

The Onion thrives best in a rather strong, deep, rich, loamy soil, and unlike most vegetables, succeeds well when cultivated on the same ground for successive years. The ground should be deeply trenched and manured the previous autumn, and laid up in ridges during the winter to soften. As early in spring as the ground is in working order, commence operations by leveling the ground with a rake, and tread firmly; sow thinly in drills about a quarter of an inch deep and one foot apart; cover with fine soil and press down with the back of a spade or a light roller. When the young plants are strong enough, thin gradually, so that they stand three or four inches apart. Keep the surface of the ground open and free from weeds by frequent hoeing, taking care not to stir the soil too deeply nor collect it about the growing bulbs.

Barletta Onion.

ONION SETS.

Potato Onion Set.

	Per qt.	½ pk.	Per pk.	Per bu.
White Onion Sets.....	\$0 25	\$0 75	\$1 25	\$4 50
Yellow Onion Sets.....	20	60	1 00	3 50

OKRA OR GUMBO.

German, Essbarer Safran; French, Gomo; Spanish, Quibombo.

Per oz. ¼ lb. Per lb.

Improved Dwarf White, long slender pods, very productive; only 14 in. high	\$0 10	\$0 20	\$0 40
Dwarf Green, early and productive	10	20	40
Long Green, fine long pods, very good.....	10	20	40

The pods in a young state are used in soups, sauces and stews, and are very wholesome and nutritious. It is the easiest culture and grows freely, bearing abundantly when grown in ordinary garden soil. It is sown at the usual time of all tender vegetables in drills two inches deep, setting the plants from two to three feet apart.

PARSLEY.

German, Petersilie; French, Persil; Spanish, Perjil.

Per oz. ¼ lb. Per lb.

Extra Double Curled, a fine dwarf variety, excellent for garnishing.....	\$0 10	\$0 20	\$0 60
Fern Leaved, the most beautiful form of Parsley, resembling crested fern or moss in its growth.....	10	20	60
Plain, leaves, hardier than the curled variety	10	20	50
Moss Curled.....	10	20	60
Hamburg, or Rooted, edible roots	10	20	50

Dwarf Green Okra.

Should be sown very early in spring in beds or in lines, and the seeds, which are somewhat slow to vegetate, should be previously soaked 24 hours in warm water. The soil should be kept free from weeds, which should be extracted by the hand, so as to avoid disturbance of the seeds when about to germinate. As soon as the plants are large enough they should be thinned out so as to stand five or six inches apart.

Moss Curled Parsley.

PARSNIPS.

German, Pastinake; French, Panais; Spanish, Chirivia.

Per oz. ¼ lb. Per lb.

Guernsey, or Cup, leading variety	\$0 10	\$0 20	\$0 50
Long smooth or Hollow Crown, long roots	10	20	50
Long White, standard variety	10	20	50

They succeed best in a deep rich soil that has been well manured the previous season, as manure freshly applied tends to the production of forked and ill-shaped roots. Sow the seed early in spring in drills eighteen inches apart in the garden, and three feet apart in the field, and thin the plants to six inches in the drill. (See cut next page.)

PEAS.

German, Erbse; French, Pois; Spanish, Guisantes.

Extra Early Varieties.

Gradus or Prosperity.

Primo (New). Very early, cross between Gradus and Early William. Pods same as Gradus but with this advantage much more prolific and hardier. See Novelties page 3. Price 25 cts. pkg.

	Per. qt.	½ pk.	Per pk.	Per bu.

Telephone. This is the best pea for general crop, both for home and market use. Immediately productive and of finest quality. Vines very strong, averaging 18 to 20 large pods per stalk, height 4 ft.....	35	1 25	1 75	6 50
Black-Eyed Marrowfat, grown for market hardy, productive, 3 feet.....	15	60	90	3 00

Earliest of all Peas.

PEAS—Continued.

	Per qt. ½ pk.	Per pk.	Per bu.
White Marrowfat, an old favorite sort for market, 4 feet	\$0 20	\$0 60	\$1 00 \$3 00
Stratagem, mammoth pods, well filled, height 1½ feet....	35	1 25	2 00 7 00

Peas come earlier to maturity in light rich soil. For general crop a deep rich loam, or strong loam inclining to clay, is best. For early crops decomposed leaves of leaf mould should be used, or if the soil is very poor, strong manure may be employed. For general crop a good dressing should be applied, and for the dwarf growing kinds the soil can hardly be too rich. When grown as a market crop, peas are not staked, but sown in single rows, two or three inches deep, two or three feet apart, according to the variety. When grown in small quantities, for private use, they are generally sown in double rows six or eight inches apart and the rows three feet apart, the tall varieties staked up by bush. For an early crop, sow as soon as the ground can be worked, and make repeated sowings every two weeks for succession. A quart is sufficient for a row of about eighty feet.

PEPPER.

German, Pfeffer; French, Piment; Spanish, Pimiento.

	Per oz. ¼ lb.	Per lb.
Ruby King, very large; bright red.....	\$0 25	\$0 75 \$2 50
Sweet Spanish, one of the largest mild and pleasant best for salads	20	70 2 00
Large Bell or Bull Nose, an early variety of mild flavor....	25	65 2 25
Sweet Mountain, or Mammoth, of large size, best for man-goes	25	75 2 50
Chinese Giant, Double the size of Ruby King. This is the largest and finest mild Red Pepper. Flesh is thick and unusually mild. Productive bearer.....	40	1 25 4 50
Long Red Cayenne, used for Pepper sauces; very pungent	25	65 2 25
Long Yellow Cayenne, similar to long Red, except in color	30	80 3 00
Cardinal, mild, thick fleshed, new.....	25	75 2 50
Chili, very piquant and prolific; fruit conical; bright scarlet	25	65 2 25
Oxheart, heart shaped, very fine, excellent for pickling	25	75 2 50
Golden Dawn Mango. This is a remarkably prolific Pepper of the Bell class and of a magnificent golden color.....	25	75 2 50

The Pepper or Capsicum is valuable for its seasoning qualities, as well as for pickling. Sow early in heat and transplant when the weather is warm and settled; or sow in warm situation in the garden about the middle of May. Plants should be set a foot and a half apart.

Houlton, Maine Potato, — New Queen.

POTATOES—Continued.

Houlton Extra Early, Sunlight. New. See Specialties, page 2. Very early, good yielder.
 Houlton Bliss Triumph, red skin, very early and productive.....
 Houlton Hebron, white skin, the most popular variety in cultivation.....
 Houlton Rose. The Standard variety. Our specialties.....
 Houlton Early Queen. Early and productive.....
 Houlton Green Mountain, late variety, good keeper, white and mealy.....
 Houlton Irish Cobbler. A white potato of splendid quality; medium size, but run very evenly. Size strong and well developed; flesh white, mealy when cooked and of excellent flavor; very early, ripening before Early Queen. You will not be disappointed in this potato, which cannot be recommended too highly.

Prices on application.

The foregoing varieties are grown for us at Houlton, Aroostock Co., Me., are the choicest stock ever offered. Coming from the extreme northern part of Maine, and raised without the aid of manure, causes them to have very strong eyes, and to be hardy and very smooth. Productiveness unsurpassed. The following are raised for us in Washington County, northern New York:

Thorburn, very early, very productive.....
 Rural New Yorker, No. 2.....
 Early Ohio, a seeding of the Early Rose, ripening a week earlier, productive.....

Prices on application.

PUMPKIN.

German, Kuerbis; French, Courge; Spanish, Calabaz a Totanera.

	Per oz.	1/4 lb.	Per lb.
Calhoun, flesh wonderfully thick and fine grained, cooks very yellow.....	50 10	\$0 25	\$0 70
Large Cheese, the best variety, hardy and productive.....	10	15	50
Connecticut Field, very productive, largely grown for feeding stock. 20c. per quart; per bush., \$3.00.....	05	10	30
Mammoth King, grows to an immense size.....	15	35	1 00
Small Sugar. Fruits medium size, of excellent keeping quality. Flesh very sweet..	10	20	50
Cushaw, salmon color, crooked neck.....	10	25	75
Tennessee Sweet Potato. Bell shaped; thick, white flesh; nothing finer for pies...	10	20	60

These are usually planted in fields of Corn or Potatoes, but may be profitably raised in fields by themselves. Sow in May, in hills eight feet apart.

RADISH.

German, Retting; French, Radis; Spanish, Robanitos.

	Per oz.	1/4 lb.	Per lb.
Vick's Scarlet Globe, new, very fine.....	\$0 10	\$0 15	\$0 50
Early Scarlet Turnip, the standard variety; of quick growth, mild and crisp when young.....	10	15	50
Early Scarlet Turnip, Forcing Variety, maturing in three weeks.....	10	20	60
Early Scarlet Turnip, White Tipped, a beautiful new early kind, round in shape; color scarlet, tipped with white, a favorite for market gardeners.....	10	15	50
Market Gardeners' Price.....	10 lbs. at 35c. lb.; 25 lbs. at 30c. lb.		

RADISH—Continued.

	Per oz.	¼ lb.	Per lb.
Early Scarlet Turnip, white tip, forcing.....	\$0 10	\$0 20	\$0 60
Olive Shape Deep Scarlet.....	10	20	50
French Breakfast, of quick growth, very mild and tender, of oval form, color scar-			
let, tipped with white.....	10	20	50
Long Scarlet, one of the leading market kinds.....	10	20	50
White Turnip, a summer variety of mild flavor.....	10	15	50
Yellow Summer Turnip, grows to a large size.....	10	15	50

Scarlet Turnip White Tipped Radish.

Rose China Winter, flesh firm and piquant; excellent for winter use	10	20	50
Black Spanish Winter, long, one of the hardiest and best for winter use.....	10	20	50
Black Spanish Winter, round..	10	20	50
Giant Stuttgart, Summer favorite, German sort.....	10	20	50
California Mammoth White, a giant white fleshed Fall Radish	10	20	60
White Spanish, long, rather milder than Black.....	10	20	60
White Strasburg, very large, German sort.....	10	15	50
White Vienna or Lady Finger, crisp and tender in summer..	10	20	50

There are two classes of Radishes, those for Spring and Summer use, which are small and arrive quickly at maturity, and with proper care can be kept all winter. The summer radishes should be used while young and tender; if allowed to grow too long they become tough and stringy; they thrive best in light rich soil. For a successive supply, sow from the middle of March until September, at intervals of two or three weeks. For an early supply, they may be sown on a mild hotbed in February.

The winter varieties may be sown from the latterpart of July to the middle of September.

RHUBARB.

German, Rabarber; French, Rhuberbe; Spanish, Ruibarbo.

	Per oz.	¼ lb.	Per lb.
Linnaeus, early, large and tender.....	\$0 15	\$0 35	\$1 00
Victoria, very large, later than Linnaeus.....	15	35	1 00
Roots	15c. each;	\$1.50 per dozen	

Sow early in spring, in drills a foot apart, thinning out to about the same distance apart in the rows when a few inches high. In fall or following spring, transplant into deep, rich soil, about three feet apart each way.

SPINACH.

Special—10 lbs. or over 15 cts. lb.; 100 lbs. \$12.00.
German, Spinat; French, Spinard; Spanish, Espinaca.

	Per oz.	¼ lb.	Per lb.
Long Standing, Round Leaved.....	\$0 10	\$0 15	\$0 25
Flander's Round Leaved, the variety commonly grown, good for spring or fall sowing	10	15	25
Large Virofray, a new variety, with leaves much larger and thicker than the old variety	10	15	25
Victoria New, dark green color, sow early.....	10	15	25
Bloodsdaile Savoy Leaved, a large, curled, thick leaved variety, the market garden-er's favorite.....	10	15	25
Prickly, prickly seeded, with triangular arrow-shaped leaves.....	10	15	25
New Zealand, produces leaves in great abundance throughout the summer, should be raised in heat and transplanted three feet apart each way into light, rich soil..	10	20	75

Sow in fall for spring use, in drills a foot apart, thinning out the plants to three inches apart in the rows. Spinach is very hardy and does not require protection except in very exposed places, where a covering of straw or leaves is useful. For summer use sow as early as possible in spring, and at frequent intervals during the season for succession.

SALSIFY, OR OYSTER PLANT.

German, Bocksbart; French, Salsifis; Spanish, Salsifi.

	Per oz.	¼ lb.	Per lb.
Long White French.....	\$0 20	\$0 50	\$1 50
Mammoth Sandwich Island.....	15	35	1 00

This very nutritious vegetable requires the same cultivation as Carrots or Parsnips. It is quite hardy and the roots may remain in the ground all winter; a quantity can be taken up and packed in earth or sand, and stored away for use when needed. It makes a fine soup, like the oyster. It is also half-boiled, grated fine, made into small balls, dipped into butter, and fried.

SCORZERONA—Black Oyster Plant.

German, Schwarzwurzel; French, Scourge; Spanish, Escorzonera.

This vegetable requires the same treatment as Salsify, which it nearly resembles. Per oz., 30c.; Qr. lb. 85c; Per lb., \$3.00.

SQUASH.

German, Garten Kuerbiss; French, Cource; Spanish, Calabaza Bonetera.

Per oz. ¼ lb. Per lb.

Mammoth Summer Crookneck, twice size of Summer Crookneck.....	\$0 10	\$0 25	\$0 75
Fordhook Squash, bright yellow, good keeper.....	10	20	75
Early Golden Bush Scalloped. True bush growth, producing fruit ready for use early in the summer.....	10	25	65
Early white Bush Scalloped, a white variety of the above.....	10	20	50
Summer Crookneck, early, productive and of good quality.....	10	20	60

Squash.

Per oz. ¼ lb. Per lb.

Canada Winter Crookneck, flesh close grained, sweet and fine flavored	\$0 10	\$0 25	\$0 65
Boston Marrow, a very valuable medium early variety, an excellent keeper and of superior quality	10	25	65
Hubbard, the best Winter Squash, fine grained, dry, keeps well and is of excellent flavor.....	10	25	70
Mammoth Chili, grows to a large size, often weighing two hundred pounds, excellent for stock.....	10	20	60
Vegetable Marrow. A favorite English sort, skin greenish-yellow, flesh white, soft and rich flavor.....	10	25	75

Squashes are divided into two classes, Summer and Winter. The Summer varieties come into use about midsummer, and are eaten when the rind and flesh are young and tender. The Winter varieties are left on the vines until they are thoroughly ripe, gathered in the Fall, and stored away for Winter use. If well ripened and kept in a good cellar, they can be preserved until May. Prepare hills for the seeds by incorporating two or three shovelfuls of well rotted manure with the soil, for each hill. For the bush varieties, from three to four feet each way, and for the running sorts from six to eight feet. Eight or ten seeds should be sown to each hill, thinning out after they have attained their rough leaves, leaving three or four of the strongest plants.

SWISS CHARD, or SILVER BEET.

This is a Beet producing leaves only, of a quality superior to those of the ordinary Beet, and excellent greens. Cultivate about the same as spinach, by sowing the seed in early spring in drills about a foot apart. As it grows, thin out for use, and keep clear of weeds if success is desired. Good cultivation will greatly improve the delicacy and tenderness of the leaves. Oz. 10c., ¼ lb. 20c., lb., 50c.

TOBACCO.

Connecticut Seed Leaf. This variety is best adapted to the climate of the Northern and Middle States.Per oz., 25c.; Qr. lb., 75c.; Per lb., \$2.50
Havana, imported seed. Vuelto de Abbajo.....
.....Per oz., 45c.; Qr. lb., \$1.50; Per lb., \$4.50

TOMATO.

Per oz. ¼ lb. Per lb.

Earliana, Extra Early. Bright red, smooth. It is claimed to be one of the earliest introduced, very productive..	\$0 30	\$0 85	\$3 00
Chalk's Early Jewel. The most valuable extreme early, and "all purpose" bright red Tomato. In most cases early as Earliana, while the fruits are larger, heavier and produced even more abundantly and continuously	25	75	2 50

Swiss Chard.

Salsify.

TOMATO—Continued.

German, Liebesapfel; French, Tomote; Spanish, Tomata.

	Per oz.	¼ lb.	Per lb.
Truckers' Favorite. The finest, large-fruited purple Tomato. Most regular in form and size, thick meated and very solid; noted for its flavor and shipping qualities. Well worthy a trial.....	25	75	2 50
Livingstons' Honor Bright, solid, long keeping qualities	25	75	2 50
Imperial, very smooth, bright red color, good size.....	25	75	2 50
New Buckeye State, large size, similar to Livingston's Beauty, little darker in color	30	85	3 00
Thornton's Terra Cotta, a cross between the Stone, Peach and Ponderosa.....	25	75	2 50
Livingston's New Coreless Tomato—See Novelties Page 3. Pkg., 15c; Oz., 60c; ¼ lb., \$2 00.			

	Per oz.	¼ lb.	Per lb.
Ponderosa. Very large and solid	\$0 35	1 00	3 50
New Stone, large and smooth	25	75	2 50
Livingston's Perfection. Very early round; smooth tough skin brilliant; solid and of rich flavor; ripening thoroughly. A favorite market variety....	20	60	2 00
Ignotum, early large and smooth	25	75	2 50
Livingston's Beauty. large dark crimson, thick skin	20	60	2 00
Dwarf Champion, resembles Acme, early	25	75	2 50
Acme, a beautiful variety, fruit of medium size, form perfect and very smooth, ripens all over and through			
at the same time This variety seems to possess all the good qualities that can be desired in a Tomato.....	20	60	2 00
Trophy (selected), the leading variety for general cultivation, and when properly grown will give satisfaction. The seed we offer is carefully selected from pure stock	20	60	2 00
Golden Queen. A first class large, smooth, pure yellow Tomato. Fine bearer and of excellent flavor.....	25	75	2 50
Yellow Plum, used principally for pickling.....	25	75	2 50
Red Pear Shape, used principally for preserving and pickling	25	75	2 50
Red Currant, for preserves.....	25	75	2 50
Yellow Cherry, similar to above, except in color.....	25	75	2 50

Purple Top Strap Leaf Turnip.

TURNIP.

German, Rube; French, Navet; Spanish, Nabo.

	Per oz.	¼ lb.	Per lb.
Milan (purple top), the earliest of all.....	\$0 10	\$0 20	\$0 60
Purple Top Munich, one of the earliest varieties.....	10	20	50
Early White Flat Dutch, an early garden variety of medium variety size.....	10	20	50

The seed should be sown in a hot-bed about the first week in March, in drills five inches apart and half an inch deep. When the plants are about two inches high, they should be set out four or five inches apart in another hotbed, or removed into small pots, allowing a single plant to a pot. About the middle of May the plants may be set in the open ground, at a distance of three to four feet apart in hills in which a good shovelful of rotted manure has been mixed. Water freely at the time of transplanting, and shelter from the sun for a few days until the plants are established. Sufficient plants for a small garden may be started by sowing a few seeds in a shallow box or flower pot, and placing it in a sunny window of the room or kitchen.

TURNIP—Continued .

	Per oz.	¼ lb.	Per lb.
White Top Strap Leaf , quick in growth, of excellent quality	10	20	45
Red Top Strap Leaf . This and the preceeding are the best two kinds for Spring sowing and for garden culture	10	20	40
Red Top White Globe , very desirable, extensively grown for market.....	10	20	40
White Egg , a new variety, beautiful shape, excellent table turnip	10	20	50
Yellow Globe , one of the best for general crop, either for table use or stock.....	10	20	50
Yellow Stone , a good globe-shaped Turnip, similar to the above.....	10	20	50
Golden Ball , a table Turnip of quick growth, and unsurpassed quality.....	10	20	50
Long White or Cow Horn , one of the best field Turnips, flesh fine grained.....	10	20	50
Yellow Aberdeen , hardy and productive, largely grown for farm purposes.....	10	20	40
Large White Norfolk , globe-shaped variety, one of the best for stock.....	10	20	40
Pomeranian White Globe , very fine, white Globe variety, round and thick.....	10	20	40
German Tetlow , small, early, fine grade sugary.....	10	20	60

RUTA BAGAS.

American Improved Purple Top , the leading variety, of fine quality, valuable both for the table and for feeding stock.....	10	20	50
Carter's Imperial Hardy Swede , an English variety, highly recommended as producing enormous crops.....	10	20	60
Long White French , an excellent sort either for table or stock.....	10	20	50
White or Sweet German , a large, solid variety.....	10	20	45
Shamrock , very large and solid, one of the choicest varieties	10	20	50
Laing's Improved , globe-shaped, with small top and tap root.....	10	20	50
Skirving's , an improved purple topped variety of large size.....	10	20	50

For spring crop, commence sowing early varieties as soon as the ground can be worked, in drills fourteen inches apart; thin out the plants to five or six inches apart. Keep clear from weeds, and when the bottoms begin to enlarge, brush away the earth from about the roots to the depth of an inch or more, and give them a light dressing of wood ashes. This is the surest mode of obtaining fair and smooth Spring Turnips in old gardens, where they are almost certain to grow wormy if the earth is allowed to remain in contact with the roots. It is important to get them started very early so that they may have time to grow to a sufficient size before very hot weather, when they will soon become tough and strong. For the Fall and main crop, sow from the middle of July to the last of August in drills as directed for the Spring sowing. In the field, Turnips are more generally sown broadcast though much larger crops are obtained by drill culture.

SWEET POT AND MEDICINAL HERB SEEDS.

Herbs are valuable for culinary and medicinal purposes, but they do not always receive the attention which they deserve. They are easily grown, and when preserved by drying are ready for use at any season of the year. Sow in Spring as soon as the weather is warm, and thin out as the plants grow up, or the seeds may be sown under glass and the young plants afterwards transplanted to their respective beds. The perennial kinds should occasionally be divided and transplanted in Spring.

	Per oz.
Anise (<i>Pimpinella anisum</i>), an annual, cultivated for its seed and its leaves, which are used for garnishing and for seasoning.....	\$0 10
Balm (<i>Melissa officinalis</i>), a hardy perennial, used for making balm tea and balm wine.....	25
Basil, Sweet (<i>Ocimum basilicum</i> .) This is a tender annual, cultivated for its leaves, which are much used for flavoring soups and sauces.....	15
Bene (<i>Sesamum orientale</i>)	10
Borage (<i>Borage officinalis</i>), hardy annual, sometimes used as a pot herb, and also for garnishing, but chiefly for claret cup and other cooling drinks. Bees are very partial to the flowers.....	10
Caraway (<i>Carum cauri</i>), hardy biennial, cultivated for its seeds, which are largely used in various kinds of confectionery and for giving flavors to liquors	10
Catnip (<i>Nepeta cataria</i>), perennial.....	40
Coriander (<i>Coriandrum salivum</i>), an annual, raised for its seeds, which are used by confectioners, and sometimes to disguise the taste of medicine.. ..	10
Dill (<i>Anethum graveolens</i>), annual, the leaves are used in soups and sauces, and the seeds are sometimes added to pickle cucumbers to heighten their flavor. Medicinally there are good for flatulence and colic in infants.....	10

Horehound (<i>Marribium vulgare</i>), hardy perennial, principally used for medicinal purposes.....	25
Hyssop (<i>Hyssopus officinalis</i>), hardy perennial; the leafy tops and flowers are used for making hyssop tea	25
Lavender (<i>Lavandula spica</i>), a popular aromatic herb	30
Marjorum, Sweet (<i>Origanum Marjorana</i>), for seasoning	10
Opium Poppy (<i>Papaver somniferum</i>),.....	20
Rosemary (<i>Rosmarinus officinalis</i>), an aromatic herb.....	30
Rue (<i>Ruta graveolens</i>), used for medicinal purposes, also frequently given to fowls for the roup..	20
Saffron (<i>Carthamus tinctorius</i>).....	10
Sage (<i>Salvia officinalis</i>), much used for flavoring various articles of cookery. It is also possessed of medicinal virtues. Tea made from its leaves is a soporific; causing profuse perspiration....	15
Summer Savory (<i>Satureia hortensis</i>), annual. It has medicinal and culinary uses. Its aromatic leaves are much esteemed in salads and soups.....	10
Sorrel, Broad Leaved , used in salads.....	10

SWEET POT AND MEDICINAL HERB SEEDS.—Continued.

	Per oz.
Thyme, Broad Leaved English , hardy perennial. Thyme is used in various ways for soups, sauce and dressings, and a tea is made of the leaves which is a great remedy for nervous headache....	25
Tarragon , Roots, each.....	25
Tansy (<i>Tanacetum vulgare</i>).....	35
Wormwood (<i>Antemisia abietinum</i>), used for medicinal purposes; it is also beneficial to poultry and should be planted in poultry grounds.....	20

GRASS SEED.

These Prices are Subject to Variation.

Blue Grass Kentucky , (<i>Poa pratensis</i>), extra clean; does well on light dry soils; recommended for permanent pasture; it requires two or three years to form a good sod, and does not arrive at its perfection as a pasture grass until it is much older; valuable in mixtures for lawn....	Per lb. \$0 20
	10 lbs. 1 75
Creeping Bent Grass, Florin , (<i>Agrostis stolonifera</i>), used by many for lawns, also well adapted to most places	Per lb., 32c.; 10 lbs. 3 00
Crested Dogtail , (<i>Cynosurus cristatus</i>), good for permanent pasture for sheep, is productive and early, suffers but little from dry weather, and is one of the best grasses for lawns. 25 lbs. to the acre	Per lb., 45
Hard Fescue , (<i>Festuca duriuscula</i>), admirable pasture grass of fine quality, thrives well in dry situations. 30 lbs. to the acre; 10 lbs., \$1.75.....	Per lb. 20
Meadow Fescue , (<i>Festuca pratensis</i>), this is excellent for hay when sown with other grasses, such as Orchard Grass and Timothy, and is also considered one of the best grasses for permanent pasture on a great variety of soils. 40 lbs to the acre	Per lb. 25
Sheep's Fescue , (<i>Festuca ovina</i>), does well in high, dry and open pastures, is of short, dense growth, and valuable in lawn mixtures. 30 lbs. to the acre. (10 lbs. \$1.75).....	20
Meadow Foxtail , (<i>Alopecurus pratensis</i>), regarded as one of the most desirable grasses for permanent pasture, being early and rapid growth. 25 lbs. to the acre. (10 lbs., \$4.25).....	Per lb. 45
Meadow Soft Grass , (<i>Holcus lanatus</i>), will grow with little or no care in any soil; it is chiefly cultivated where the better grass will not grow. 3 bushels to the acre; 7 lbs to bushel. (10 lbs., \$2.25)	Per lb. 25
Orchard Grass , (<i>Dactylis glomerata</i>), is one of the most desirable of all pasture grasses, coming early in the Spring and remaining later in the Autumn than any other, 3 bushels to the acre; (10 lbs. \$2.50)	Per lb. 27
Red Top Grass , (<i>Agrostis vulgaris</i>), good permanent grass, excellent for lawns, pastures, etc., and sowing with Timothy and Red Clover for cutting for hay. Sack 50 lbs., \$3.00; Per bushel of 14 lbs.	1 00
Fancy Red Top Grass , cleaned like Timothy; free from chaff; (10 lbs., \$2.20).....	25
Rhode Island Bent Grass (<i>Agrostis canina</i>), best of all grasses for lawn where only one variety is used. 32c. lb.....	Per bushel of 10 lbs. 3 00
Rye Grass English , (<i>Lolium perenne</i>) Probably one of the most important and valuable of the cultivated grasses; is naturally adapted to almost any soil; matures early, and is very productive, but contains less nutrition than Orchard Grass, lb., 15c.,	10 lbs. 1 00
Rye Grass Italian , (<i>Lilium Italicum</i> .) This ripens much sooner than the English Rye Grass and is greatly preferred by cattle, and greedily eaten by them, either in a green or dry state. Per lb., 15c; 10 lbs.....	1 20
Sweet Vernal Grass , (<i>Anthoxanthum odoratum</i>), is not valuable when sown alone, but when sown with other grasses it becomes so because of its early growth. It also yields a delightful odor when cured for hay. 10 lbs. to the acre, mixed with other grass annuals. (10 lbs., \$1.75) Lb.	20
Tall Meadow Oat Grass , (<i>Avena elatior</i>), very valuable for pasture on account of its early and luxuriant growth. It shoots up very quickly after being cut, and produces a thick crop of aftermath, which also makes it valuable as a soiling crop. It has been lately in demand and is much valued in the South.....	29c. lb. 10 lbs., 2 50
Timothy, Herd's Grass , (<i>Phleum pratense</i> .) As a crop to cut for hay, this is probably unsurpassed. It thrives best on moist, peaty or loamy soils, and is not suited to light or sandy soils, although on such it can, with care, be made to produce fair crops. Price according to market. 45 lbs. to bushel. 12c. lb.....	Bushel 2 50
Rough Stalked Meadow Grass , (<i>Poa trivialis</i>), produces a constant supply of highly nutritious herbage, particularly on dry soils; one of the most valuable for laying down pastures and meadows on soils either moist or moderately dry. 14 lbs. to the bushel; 20 lbs. to the acre. Per lb., 45c. 10 lbs.....	4 00
Wood Meadow Grass , (<i>Poa nemoralis</i>). This grass grows well both on shady and exposed situations. 30 lbs. to the acre.....	Per lb. 65
Yellow Oat Grass , (<i>Avena flavescens</i>), good for dry pastures and meadows. Is much relished by sheep	\$1.00 lb. 10 lbs. 9 00
Golden or German Millet . This variety is a heavier cropper than the Hungarian Grass, and needs a longer season and stiffer soil. Grows from three to five feet high, stands up well, is easily cured, gives general satisfaction. Three pecks to the acre. Per bushel of 48 lbs. Market Price.	
Hungarian Grass , a valuable forage plant, succeeds well on dry, light soil; withstands the drought remarkably, remaining green when all other vegetation is parched up, and if its development is arrested by dry weather, the least rain will restore it to vigor. Sow broadcast. Three pecks to the acre. Per bushel of 48 lbs., Market Price.	

MUZZY BROTHERS' CELEBRATED LAWN GRASS

Muzzy Bros. Fine Mixed Lawn Grass. Composed of a mixture of the finest grasses; sow four to five bushels per acre. 15c. qt.....Per bushel \$3 00

Muzzy Bros.' Special Lawn Mixture. This extra choice mixture contains a large proportion of the finer and more expensive species of grasses, in extra heavy samples, producing a turf of the closest and finest texture possible. 25c. qt.....Per bushel 4 50

Muzzy Bros.' Shady Lawn Mixture. A mixture of grasses that thrive in shady situations, under trees, or close to walls where there is little sun. 25c. .qt.....Per bushel 5 00

How to Make a Lawn

The ground ought to be carefully prepared during the winter, by draining if found requisite, and digging to the depth of six to twelve inches, according to the nature of the soil. The land should then be leveled and raked to remove stones, etc., and then made firm with a heavy iron roller. When the natural soil is too stony, a supply of good mould should be spread over it to a depth of two or three inches. In March or April, before sowing the seed, the ground ought to be thoroughly cleaned and made perfectly level with the iron roller and as the subsequent appearance of the lawn depends in a great measure on this part of the preparation, it is of the utmost importance it should be well done. The

ground should then be evenly raked and the seeds sown. April and September are the best months for sowing. The seed should be sown on a calm day, at the rate of four bushels to the acre.

After the sowing has been accomplished, the ground should be again rolled, and as soon as the young plants have attained the height of two or three inches, the whole plot should be carefully gone over with a sharp scythe, and from the months of April to October it should be mown every ten days. Mowing machines are excellent after a comparatively close turf is established; but for the first six months' sowing, the scythe should be used in preference to the machine. **Frequent mowing and rolling are indispensable to maintain the turf in good order.** By adopting these means a close green sward will be obtained in a short time.

For lawns requiring improvement, and on croquet grounds, where the turf has become bare through constant use, it is only necessary to sow fresh seed at the rate of one or two bushels to the acre, either in the Spring or Fall, using a small tooth rake and rolling afterwards. A slight dressing of manure, late in the Fall, will often be found beneficial in encouraging the growth of finer kinds of grasses, and helps to produce a close growing turf.

MEADOW AND PASTURE MIXTURES

The formation of permanent and productive meadows and pastures is of great value to farmers, and has been given thorough study by numerous experts, resulting in formulas that will give good results under the varying conditions of our climate.

It is a well known fact that a heavier and more prolonged growth is produced by a mixture of many sorts of grasses than by only one or two. Some sorts do best on high dry soil, while others prefer plenty of moisture. Some mature so early and others so late that there is no time in the season when one sort or another is not at its best. Grass seed may be sown either early in spring or in fall, from September to the middle of October in this latitude. Below we give mixtures that we are confident will give good results.

MEADOW MIXTURE FOR ONE ACRE.

- No. 1. On Good land, neither Too Dry or Too Wet.
Price \$3.00 per Bushel of 20 lbs. Sow 2 bushels to the acre.
- No. 2. For High and Dry Land.
Price \$3.50 per bushel of 20 lbs. Sow 2 bushels to the acre.
- No. 3. On Wet Land.
Price \$3.00 per Bushel of 20 lbs. Sow 2 bushels to the acre.

PASTURE MIXTURE FOR ONE ACRE.

- No. 4. On Good Land, neither Too Wet or Too Dry.
Price \$3.50 per Bushel of 20 lbs. Sow 2 bushels to the acre.
- No. 5. On Dry Land.
Price \$4.00 per Bushel of 20 lbs. Sow 2 bushels to the acre.
- No. 6. On Wet Land.
Price \$3.50 per Bushel of 20 lbs. Sow 2 bushels to the acre.

CLOVERS.

GRAINS

All grains are selected expressly for seed, and are strictly pure and true to name.

SPRING WHEAT, 60 LBS. BUSHEL.

Mashatchewan Fife		} Market Price
China Spring, chaff bearded variety, and a general favorite		
Mediterranean Spring. This variety has been grown with great success for a number of years in some sections of New England, and is very highly recommended, is bearded, yields well and the kernels are larger than those of other Spring varieties		
White Russian.. This variety, recently introduced, has proved very valuable in many localities in the Northwestern States. Straw of good length, strong, does not lodge. It is not inclined to rust. Heads of large size and well filled with plump kernels weighing 6 to 62 lbs. to the bushel. Has produced 40 to 50 bushels to the acre.		

GRAINS—Continued.

WINTER WHEAT, 60 lb. Bushel.

Johes' Winter Five, surpassing all other varieties in hardiness and productiveness.....

Golden Cross, has the yield of the Clawson, with flour of the Mediterranean.....

Clawson, also known as the Seneca. This is a beardless white wheat with red chaff. It proves early and hardy, has a stiff straw, yields larger crops than any other.....

Fultz. A beardless amber variety, grown largely in some sections of Pennsylvania and with very satisfactory results. It is very hardy and productive, and the straw is of medium length and very strong; makes excellent flour.....

Red Mediterranean (American). This is the imported variety fully acclimated and is a standard wheat. The heads are bearded and well filled. It succeeds well in nearly all localities and ripens early

Market Price.

OATS, 32 lb. Bushel.

Swedish, heavy and bright color.....

Washington, very popular and standing well until fully ripe.....

Probsteirer, very productive and heavy. The straw is very strong; No. 32.....

Scotch, one of the leading varieties.....

Cultivation of Flower Seeds

HARDY ANNUALS.

Successive sowing may be made from March to the end of September; March, April and May are the best months for general Summer display; June and July for Autumn blooming, and August and September for Spring flowering. The soil should be carefully prepared by being finely pulverized and made light and rich.

Sow thinly; cover with a very thin coat of fine dry earth—the smallest seeds needing but a mere dusting to cover them—and from the first keep the plants thinned sufficiently to prevent overcrowding, which weakens them and produces poor blooms.

HALF HARDY AND TENDER ANNUALS.

These include some of the most beautiful and varied of our Summer flowers, among which may be mentioned Aster, Balsam, Ten-Weeks' Stocks, Phlox, Drummondii and Double Zinnia, which in form, size and brilliancy of flowers, and their great diversity of color, are now brought to a high state of perfection.

Sow from the beginning of March to June; when sown in March and early part of April, sow thinly in well-drained pots, pans or boxes; place in the greenhouse or a frame where there is a mild heat, or in the absence of these a sunny window in the house will do; cover the seeds lightly, press down the soil firmly and give a gentle watering with a fine rose watering pot.

Separate the plants when large enough to handle, and firmly plant out in May, as soon as the weather is sufficiently warm where intended to flower. The seed can be sown in the open ground in May and June.

Salvia Splendens.

Double Zinnia.

HARDY BIENNIALS AND PERENNIALS.

These can be grown at all seasons of the year in the open garden without protection, and may therefore be placed among the most useful of our flower-ing plants; their variety is almost endless, producing almost every form of flower and shade of color.

The seed may be sown from May to October, but the best time is in May and June. Select for sowing a shady, moist situation, and in order to secure fine, strong plants, sow thinly, and as soon as large enough transplant in showery weather to nursery beds, and finally plant out in October and November; those sown in Autumn are best planted out in March or April, where intended to flower. Many Perennials, if sown early and treated as Annuals will flower the first season. The Pansy, Petunia, China Pink and its several splendid varieties, and many others, do better as Annuals than Perennials.

Half Hardy Biennials and Perennials may be raised and treated in the same way as recommended for Half Hardy Annuals.

ANNUALS FOR WINTER BLOOMING.

Many Annuals are very desirable for the greenhouse for Winter; blooming these should be sown in July or August. The most important are Browallia, Candytuft, German Stocks, Lobelia, Mignonette, Schizanthus, Sweet Alyssum and Dwarf Nasturtiums. Many varieties as well as the above may be sown in the Fall and Winter for blooming early in the Spring, such as Acroclinium, Ageratum, Antirrhinum, Apple-scented Geranium, China Pinks, Dinathus, Mimulus, Myosotis, Pansy, Fetunias, Phox Drummondii, Salpiglossis, Salvia, Verbena Vinca and others.

General List of Flower Seeds

Abbreviations and Signs used in the following list

- A. Annual, refers to those plants that last but one season, and must be raised annually.
- B. Biennial, raised one year, bloom and die the next.
- P. Perennial, lasts two or more seasons.
- h. Hardy, as those that may be grown at all seasons in open air, without protection.
- hh. Half hardy, require the protection of a frame pit, or handlight till May, when they may be transferred to the open garden.
- t. Tender, require to be raised and grown under glass, and will only do in the open air in July, August and September.
- cl. Climbing, as Cypress Vine, Morning Glory, etc.
- spr. Spreading or trailing as Verbena.
- g. Greenhouse, those plants which require to be grown under glass.
- s. Shrubs, plants of a shrubby or bushy habit.

Those Biennials, and Perennials marked with an (*) will bloom the first year if sown early.

AMMONIATED FLOWER FOOD

A dressing made expressly for plants grown in house, garden or conservatory. Clean, odorless and producing early and abundant blossoms of rich and brilliant color, and healthy, luxuriant plants, free from vermin.

This Ammoniated food was the first odorless chemical preparation made and sold in this country. It is made expressly, for flowers grown in the house, garden, or conservatory, and contains the same plant food as stable dressing, but in a cleaner and more soluble form.

Price 15 cents per Package.

ROSEBUSHES, BULBS, ETC.

Hardy Roses. Two year old, Holland grown, our own importation. We carry the largest assortment of Rosebushes in the state. Both hardy and everblooming we append a partial list of the varieties we carry in stock for immediate delivery—they will produce a full crop of blooms the first summer.

Tea Roses.

Gladiolus.

Dahlias.

- American Beauty.** Rich, rosy-crimson. Very large.
White American Beauty. Very large, pure snow white.
Baroness Rothschild. Bright, rosy pink. Immense signs.
Crimson Rambler. Immense cluster bright red flower—very quick grower and hardy.
White Rambler. Same as Crimson, cut with pure white blooms, hardy.
Yellow Rambler. Yellow blooms in big clusters, hardy.
Genl. Jack. Large brilliant, bloodred blooms. Fine bloomer.
Giant of Battles. Rich shade of rosy-crimson.
Glorie de Dijon. Free blooming climber. Tea scented flowers of creamy white tinged with salmon and pink.
La France Pink. One of the sweetest and most beautiful roses grown. Large, silvery pink. Blooms till frost.
La France Red. Large blooms of brilliant rose pink almost crimson.
La France White. Same as above two, but blooms are pure white. Very free bloomer.
Kaiserine Aug. Victoria. One of the best blooming, largest and sweetest white roses grown.
Marechal Neil. Large, clear yellow. Ever bloomer.
Magna Charta. Rosy crimson. Large buds and blooms.
Mrs. John Laing. Clear shining pink, beautifully shaded.
Merville de Lyon. Ivory white flushed with carmine.
Mons. Boncenne. Dark, velvety crimson. Very large.
Perle de Lyon. Deep golden. Ever bloomer.
Paul Neyron. Dark rose, very large and fragrant.

15c. each, 2 for 25c.

Tuberose. One of the most delightfully fragrant and beautiful of the summer flowering bulbs. By skilful management a succession of flowers may be obtained all the year round. For early flowers they can be started in February or March in the greenhouse or hotbed; and for a succession they can be planted at intervals as late as July. For flowering in the open border plant about the middle of May or as soon as the ground becomes warm. No. 1, Pearl Dbl. 3c.; 2 for 5 cents.

GLADIOLUS.

Extra Fine Mixed. With a view to supplying a high grade mixture at moderate prices we have had grown for us by Gladiolus specialists good quantities of some of the choicest named kinds for this mixture, and shall use with them some of Child's hybrids and other best mixtures which will insure a large variety of shades and colors. This is truly a banner strain. Price 3c. each; 30c. dozen.

DAHLIAS.

Our Dahlia roots are exceptionally fine this year, being Southern grown, and true to name and color. We carry a large assortment of colors. 10c. each.

Caladium Esculentum. Elephant's ears.

One of the most effective and easily grown plants for the lawn or flower border. Will thrive in any ordinary garden soil, but to get best results plant in rich soil and give plenty of water.

Paeonies. No other plant flowering at the same season can vie with the Paeony for beauty. They are perfectly hardy, requiring no protection whatever, are not troubled with insects or disease, and once planted take care of themselves. Price 20 cents each.

Cannas. Extra strong roots, 5c. each.

Tube Rose.

Flowering Bulbs for Autumn Planting.

Being pioneers in the Bulb line for over fifty years we are in a position to give you the best value for the least money. It is poor economy buying unreliable Bulbs, for it's simply love's labor lost. We want to gain your confidence and, if once gained, we assure you we will retain it, and give you what you ask for without substituting.

A General Fertilizer Suitable for Every Crop.

Stands ahead of anything in the market in Analysis, Selling Price and Results. The Great Satisfaction this Fertilizer has given our Customers, being so universal, enables us to recommend it as the Leading Artificial Manure in the Market.

Muzzy Bros.' "Sure" Phosphate

FOR GENERAL CROPS. BEST FERTILIZER EVER MANUFACTURED.
GUARANTEED ANALYSIS.

Nitrogen	2.46 to 3.28 per cent.	Total Phos. Acid.....	10 to 11 per cent.
Equal to Ammonia.....	3 to 4 per cent.	Potash Actual	6 to 8 per cent.
Available Phos. Acid.....	8 to 10 per cent.	Equal to Sulph. Potash....	11.09 to 12.94 per cent.
Insoluble Phos. Acid.....	1 to 2 per cent.	Per ton (12 bags), \$33.00; per bag (167 lbs.)	\$3.00

Muzzy Bros.' "Sure" Super-Phosphate

FOR POTATOES.

Nearly every farmer grows Potatoes, and consequently is, with the trucker and market gardener, interested in buying that fertilizer which for the least cash outlay, will bring him the best returns; as it is no longer a question, but an actual fact, that with a Potato Manure made from first-class material, like our "**SWIFT-SURE**" SUPER-PHOSPHATE FOR POTATOES, you can grow a larger crop of Potatoes than you can with barnyard manure, and have them smoother, free from imperfections and of more uniform size.

GUARANTEED ANALYSIS.

Nitrogen.....	2.46 to 2.28 per cent.	Total Phos. Acid.....	9 to 11 per cent.
Equal to Ammonia.....	3 to 4 per cent.	Potash Actual.....	7 to 8 per cent.
Available Phos. Acid.....	8 to 10 per cent.	Equal to Sulph. Potash....	12.94 to 14.79 per cent.
Insoluble Phos. Acid.....	1 to 2 per cent.	Per ton (12 bags), \$33.00; per bag (167 lbs.)	\$3.00

Muzzy Bros.' Special Fertilizer

Nitrogen.....	1.65 to 2.47 per cent.	Insoluble Phos. Acid.....	1 to 2 per cent.

Nitrate of Soda

A fertilizer for all crops. It is very quick in action, and hastens maturity of crops fully two weeks. Being extremely soluble, it should not be applied until the crops are above the ground, when 100 pounds per acre should be sown, mixed with woodashes. Does not exhaust the land.

5 lbs., 35c.; 10 lbs., 50c.; 25 lbs., \$1.25; 50 lbs., \$2.00. Bags trifle over 200 lbs., \$3.50 per 100 lbs.

Pure Pulverized Sheep Manure

A pure, natural and nutritious manure. Immediate and lasting in effect. Excellent for mixing with the soil of the greenhouse plants. In the vegetable garden it promotes a rapid, steady growth until maturity. It makes a rich Liquid Manure.

Quantity Required. For garden and field crops, 1 to 2 tons per acre—½ before plowing, the balance before harrowing. For top-dressing grass, use 1 ton per acre, applied in fall or early spring.

Price, 100 lb. bag, \$2.00; per ton of 2,000 lbs., \$30.00; in packages of 2 lbs., 15c.; 10 lbs. 50c.

THE WIARD PLOW

No. 100.—Right hand with Steel Moldboard, Grooved Steel Beam; light but very strong.
Weight 106 lbs. Full rigged.....\$13.98

No. 200—Two horse, Cast Beam, Full Rigged.....\$9 00

A medium priced plow with finely shaped moldboard, shin piece and every other requirement of a strong, durable and serviceable plow. Will last a lifetime.

Our New B. O. Steel Beam 1 Horse Plow, with extra Share, only \$4.98.

We have embodied several improvements which make it the best of its class on the market. The Handles are braced with two solid steel braces which makes it perfectly rigid.

Price with extra Share	\$4 98

No. 21.—Swivel, One-horse, Cast Moldboard, Wood Beam	\$7 98
Weeder—7½ feet wide, 35 adjustable spring steel teeth	\$7 98

REPAIRS FOR ABOVE PLOWS ALWAYS IN STOCK.

No. 24.—One Horse, Cuts 10 inches, Weight 50 lbs.....\$5 48
It has Clevis that permits horse to walk in furrow. An excellent Plow. Low in price. Chilled Iron. Landside outpoint; is very strong and convenient.

THE BEST PLOW.

This is the best one-horse convertible Plow ever sold for the use of market gardeners and farmers generally. By changing the Moldboards and Shears that come with the plow, the purchaser actually has four plows in one. Price, complete..... \$4.98

No. 1½ Moldboard and Share makes a large one-horse Plow.
The No. 2½ Moldboard and Share making a medium sized one-horse Plow, a Cabbage Moldboard and Share making a complete Cabbage Plow, and by using the Plow without the Moldboard with the small Share bolted to the standard makes a superior Plow for working among cabbage, strawberries, etc.

MITCHELL POTATO DIGGER AND SHOVEL PLOW COMBINED.

Price, with Wings only.....	\$5 00
“ “ Potato Digger	6 00
“ “ Wings and Potato Digger attachment.....	7 98

This implement should be in the hands of every practical farmer, doing its work easily and in the most perfect manner. By the changing of one bolt it may be converted into a **SHOVEL PLOW** or **POTATO DIGGER**. The fingers are adjustable, being held in position by the plow point. Thus, in case of breakage, a new part may be inserted without the expense of a whole new head. The fingers, points and wings are made of steel, rendering it light, strong and durable.

Darnell's Patent Furrower and Marker

In presenting the numerous merits of this invaluable little implement we would be glad to draw a comparison with another of its kind, but we have seen or heard of nothing but the ordinary scratch sleds which make a mere mark as a guide for the plow which follows, thus increasing the work instead of lessening it.

We have a genial ever-borrowing neighbor, however, with whom we might compare notes, and we will just bring him forward with his plow which he is inclined to think is good enough yet. We think you will not fail to notice the difference.

We ride while he walks.
We bring into requisition the services of our boy, if busy ourselves, while nothing short of a man, and a good one, too, can handle the plow.
We open two furrows while he opens one in clean ground, and do it better.

THE EDDY IMPROVED MARKER.

These Markers have chilled Shoes or Runners with steel wings bolted on, and may be easily replaced when worn. Frames made of seasoned oak, firmly braced and bolted together, arranged with holes permitting the adjustment of the shoes to any width desired. Gauge is adjustable and swings to either side. It will save time enough to pay for it in one season, also improve the looks of your fields. Price.....\$11 00

EDDY'S NO. 10 DISK HOE AND COVER.

The Eddy Disc Hoe and Coverer have 20 inch steel Discs, adjustable handles and are invaluable for covering and ridging all kinds of row crops. Adjustable in every way it is one of the best implements on the market.

Price\$10 00

ACME ASPARAGUS PUNCHER

A greatly improved pattern with knife guide and adjustable head piece for regulating the length of the bunch. This is the latest pattern, 1907 patent. Price\$1 90

"Planet Jr." Farm and Garden Tools

The New "Planet Jr." Catalogue is the handsomest, best and most instructive book ever issued on a similar subject. Full of little points that bring profit. Full of true and handsome illustrations. We mail it free to any address on application.

Remember, "Planet Jr." machines are the recognized standards throughout the world, and are guaranteed by the manufacturers.

Planet Jr. No. 3 Hill and Drill Seeder Price \$10.00.

Opens the furrow, sows any kind of garden seed accurately in drills or hills, covers, rolls down and marks out the next row—all in one operation.

Does six men's work quicker, better, and far cheaper than old-style back-breaking gardening methods. Saves seed and insures a bigger, better yield.

Be modern. Use Planet Jr. Seeders, cultivators and wheel-hoes, because they are made by a practical farmer and manufacturer who knows what is needed to lighten your labor.

work.. With this one implement the small farmer can do

"Planet Jr." No. 4 Combined Seed Drill, Single Wheel Hoe, Cultivator and Plow Price \$10.50.

As a Hill and Drill Seeder only, Price \$8.50.

This admirable tool combines in a single convenient implement a capital hill-dropping seeder, a perfect drill seeder, a single wheel hoe, a cultivator, and a plow. It holds two quarts and as a seeder sows in continuous rows or drops in hills at five different distances. It is thrown out of gear by simply raising the handles. The index is accurate, simple and easily set. The drill is detached and the tool frame substituted by removing but one bolt. It then becomes a single wheel hoe, garden-plow or cultivator. It is useful almost every day of the season, at every stage of garden work.

"Planet Jr." No. 25 Combined Hill and Drill Seeder, Double Wheel Hoe, Cultivator and Plow. Price Complete \$13.00.

This combined machine is intended for a class of gardeners who have a large enough acreage in crops for a Double Wheel Hoe to be used to good advantage, and yet prefer not to buy a separate wheel hoe. It is large enough for field use, for it holds 2½ quarts.

As a drill it is almost identical with the No. 4 Drill; will sow in drills or hills, 4, 6, 8, 12 or 24 inches apart and has the same automatic device for throwing out of gear and the new combined cut-off and seed index with thumb screw adjustment. It is thoroughly substantial and accurate in sowing all kinds of garden seed in either hills or drills.

As a Wheel Hoe it is identical with the No. 12 Double Wheel Hoe, the best machine on the market. The change from drill to wheel hoe takes but a moment, and the entire combination is one we can recommend and guarantee satisfactory.

"PLANET JR." No. 12

Double Wheel Hoe,
Cultivator
and Plow.

Price \$6.50

This perfected wheel hoe is invaluable for use in all small crops. Its variety of work is almost incredible. Changes and adjustments of the tools are made with the greatest quickness. It has 11-inch wheels, which can be set at four different distances apart; the frame is malleable, with ample room for tool adjustment and can be set three different heights. The handles are adjustable at any height, and, being attached to the arch, are undisturbed in making changes of adjustment in frame, wheels or tools. The arch is of stiff steel, unusually high; the quick change frame permits the tools to be changed without removing the nuts. All the blades are of tempered and polished steel.

Planet Jr. No. 13 Double Wheel Hoe. Price \$4.50.

This tool is the No. 12, with 6-inch hoes only, these being the tools that are used by everybody. Any or all of the tools shown with No. 12 may be added at any time.

Planet, Jr. No. 17 Single Wheel Hoe, Cultivator and Plow. Price \$4.75

For easy gardening, and at the same time clean and perfect gardening, the kind that will make your garden the talk of the neighborhood and cause your face to glow with honest pride, nothing is quite the equal of this **No. 17 Single Wheel Hoe**. It is suited to all kinds of garden cultivation and all garden crops. You can do more and better hoeing with it in one day than you can do in three days with a hand hoe. The **No. 17** has a pair of 6-inch hoes, a plow and a set of cultivator teeth, an outfit sufficient for most garden work.

Get More Out of Your Garden

Use the Planet Jr. Combination Garden Tools, and you'll do better work, save two-thirds your time, and get better crops. There's nothing like a Planet Jr. for profitable gardening or farming. Made by a practical farmer and experienced manufacturer. Fully guaranteed.

Planet Jr. No. 18 Single Wheel Hoe. Price \$3.50 Net.

This tool has the same frame and handles as No. 16 but has one pair of 6-inch hoes only—the tools that are most constantly useful throughout the season. All the other tools can be added as needed.

New No. 14 Planet Jr. Double-Wheel Disc-Hoe, Cultivator and Plow has three adjustable discs on each side, a pair of new-idea pronged cultivator teeth that run shallow next the row, steels for plowing, furrowing and covering, and a pair of leaf lifters.

PRICE, COMPLETE, \$8.00 NET.

No. 38 Planet Jr. Single-Wheel Disc-Hoe Cultivator and Plow is a handy tool for quick thorough garden cultivation. The new style cultivator teeth run shallow next the row, and the leaf-lifter prevents injury to plants. Discs are adjustable for desired depth, and throw to or from the row.

PRICE, COMPLETE, \$7.00 NET.

Planet Jr. No. 7 Horse Hoe and Cultivator. Price \$7.98

Probably no other cultivating machine is so widely known as the Planet Jr. Combined Horse Hoe and Cultivator, for it is in use throughout the civilized world. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle. You can do almost anything you want with it in the garden or field. It opens and closes furrows, hoes right up to the plants without danger of injuring, throws dirt to and from the row and throws back from centre again. You can set the hoes at any angle or reverse altogether, cultivate to any depth desired, and adjust for any width. Every part is perfected to make the tool acceptable to the intelligent farmer who knows the best is always the cheapest.

Planet Jr. No. 9 Horse Hoe and Cultivator. Price \$7.25

This Admirable Tool is identical with No. 7, except that it has a piano wheel instead of the lever wheel. It has the high frame, patented hollow steel standards, patent lever Star wheel, patent lever expander, and new hollow steel wheel arms.

PLANET JR. TWELVE-TOOTH HARROW, CULTIVATOR AND PULVERIZER.

Price\$8 50
Less Pulverizer 6 90
Less Wheel and Pulverizer..... 5 70

Gardeners cultivate better than formerly. It has been found to pay best. The farmer or gardener is most likely to cultivate best who has the tool best adapted to his purposes. With the Twelve-Tooth Harrow here shown you go as deep or shallow as you like, come up close to the row without injuring plants, cut out all the weeds, stir the soil and mellow and fine it as with a garden rake. You widen and narrow as you please between 12 and 32 inches. It's a special favorite with strawberry growers, market gardeners and truckers.

Fire Fly Garden Plow
Price \$2.25.

WIARD ADJUSTABLE WEEDER

PRICE, \$7.50

THE WIARD ADJUSTABLE WEEDER

1900 Pattern

Used more especially on planted crops in early spring, but very useful for grain fields when hard and dry, or cracked by rain.

Surface weeds are entirely destroyed, while the crop, being planted deeper, is not disturbed, but its growth increased by the loosening and pulverization of the soil.

The Weeder is 7½ feet wide, and has 35 spring-steel teeth, which may be adjusted to stand straight or sloping, adapting it to all kinds of soil.

The use of the Weeder proves correct the theory that the more elastic the teeth, and the greater the vibratory motion, the better the result; and these qualities contained in the Wiard far more than in any other, give it the highest efficiency for the work intended, and render it one of the most valuable labor-saving implements that can be placed on the farm.

THE FAIRFIELD LAWN SWING.

Easily leads all others in the market for the following reasons:
First: Because it is built upon the best mechanical principles--and thus combines the maximum of strength with the minimum of weight, and weds safety to durability.
Its notable lightness makes it easy to handle, while a scientific construction renders it remarkably easy to operate, and secures to it a peculiarly attractive and pleasing appearance.
'Tis "Fair" to claim that nothing now in the "field" equals the

INSECTICIDES AND REMEDIES FOR PLANT DISEASES

From photographs taken June, 1906, in orchard at Sound Beach, Conn. These trees stand about 40 feet apart. They were in like condition one year before. The left hand tree was sprayed once with "SCALECIDE" and saved. The other was left unsprayed and has been killed by scale.

SAVE THE ORCHARDS and Small Fruits

In all parts of the world insect pests cause a loss of millions of dollars annually to the fruit growers.

PRATT'S "SCALECIDE"

will positively destroy all soft-bodied, sucking insects, including all forms of the dreaded "Scale." It is simple, cheap, easily applied and wonderfully effective. Endorsed by government experiment stations, agricultural schools and thousands of fruit growers.

animal when it licks itself after treatment. Dilute with water 30 to 50 parts. $\frac{1}{2}$ pt., 25c.; pt., 40c.; qt., 75c.; $\frac{1}{2}$ gal., \$1.25; gal., \$2.00.

White Hellebore. An excellent remedy against currant worms, rose slugs, caterpillars, etc. Can be used either dry or in water, 15c. per pound.

Whale Oil Soap. One of the most effective agents used for destroying scale bug, plant lice and all other insects injurious to vegetation. Price, 1 lb. box, 15c.; 2 lb. box, 25c.

Standard Fly and Germ Killer. It is a thorough disinfectant and germicide. Protects horses and cows from the torture of flies. The **Lightning Insect Exterminator No. 1** discharges the preparation in a fine, broad spray without waste and using but very little. Fifty cows can be sprayed in a few moments, 60c. per gallon.

Horicum, the Great Scale Killer. A remedy for the Scale that is the result of six years' experiment before being put on the market. Nothing better in use for the purpose. One gallon will make 21 gallons for use. 35c. per quart; \$1.00 per gallon.

Sulphur, Powdered. A remedy for insects of all kinds, both by itself and in combination with other remedies. Market rates.

Hammond's Slug Shot is an insecticide for the destruction of Potato and Rose Bugs, and all Lice, Worms or Caterpillars upon Melons, Egg Cucumber, Cotton, Tobacco and Cabbage plants, Tomatoes, Currants, Fruit or Ornamental Trees, Grape Vines (Shrubs and Flowering Plants. 5 lb. pkg., 25c.

Strictly Pure Paris Green. Market Price.

Double Ground Land Plaster, per 100 lb. bag.....50c

SULPHO-TOBACCO SOAP

A Wonderful and Inexpensive Insecticide

Sulpho-Tobacco Soap is a powerful agent for the destruction of all bugs and insects. One or two applications will rid plants of the pests. Full directions with each cake.

Destroys cabbage-, squash- and potato-bugs, currant-worms, lice, green-fly, mealy bug, red spider, etc. Sure death to all plant insects indoors and out-of-doors. Of special value for spraying shrubs, fruit-trees and vines.

3-oz. Cake makes $1\frac{1}{2}$ gallons prepared solution. 10 cents.
Mailed, postpaid, for 13 cents.

8-oz. Cake makes 4 gallons prepared solution. 20 cents.
Mailed, postpaid, for 28 cents.

10-lb. Cake makes 80 gallons prepared solution. By Express, \$3.00.

Free with every order, "The Window Garden," a booklet by Eben E. Rexford, giving valuable information on the cultivation of plants and the extermination of insects.

BORDEAUX MIXTURE OR FUNGIROID

For all fungous diseases, such as mildew, and the various rots of the grape. Full directions on label. Dry, 1 lb. box, 20c.; 5 lbs. and over at 18c. per lb.; 50 lbs. for \$7; liquid, 1 qt., 35c.; 1 gal., \$1.00.

ROSE NICOTINE.

Most powerful insect and Parasite Destroyer known. Guaranteed to kill Insects, Lice on Flowers, Plants, Fruits, Trees, Vegetables, Human Body, Dogs, Cats, Fowls, Earth Worms, Ants, also any House Bugs or Vermin.

Pump No. 25
Price \$8.50.

LIGHTNING BARREL SPRAY PUMP No. 25.

This pump has great capacity, and will throw a continuous stream, or any sized spray desired, by the use of our graduating nozzle. The air is compressed into the air chamber, thereby giving an unbroken stream, and making it the most rapid spraying pump made. The agitator thoroughly stirs the liquids and prevents the same from settling. It is adapted for all kinds of spraying, whitewashing, etc. Price, \$8.50. (See cut.)

"Fruitall," Spray Pump. "Fruitall" Spray Pump is made on the same general lines as the famous "Pomona;" it is, however, lighter and of smaller capacity. All working parts, including plunger, gland, valves, valve seats and strainer are made of bronze. Regularly fitted with wing agitator similar to one used on "Pomona," and which has proven to be the best type. Not made for side of barrel. Price, with hose complete, no barrel, \$12.00.

"Premier" Brass Bucket Pump.

"Premier" is arranged with suction and discharge hose and spray nozzle. With this nozzle a solid stream may be thrown, or a fine spray. Pump has brass cylinder, plunger and rod. It is particularly adapted for washing windows and wagons, spraying plants in conservatories, green houses, etc. Its weight is only eight pounds.

Price, with 2½ feet ¾ inch suction and 3 feet ⅜ inch discharge hose, "Seneca" Spray Nozzle and Strainer, \$5.98.

Lightning All Brass Spray Pump.

This spray pump is constructed entirely of brass, so it is not affected by the arsinates used for spraying fruit trees, etc. The operator is enabled to keep a constant pressure of 50 to 100 pounds at the nozzle with very ordinary exertion. Will throw a solid stream 50 feet, or make a fine spray by adjustment of the nozzle. When spraying, a fine jet at the bottom keeps the solution thoroughly stirred. Price \$3.50. See cut.

Lightning All Brass
Spray Pump
Price \$3.50.

"LIGHTNING" WHITEWASH SPRAYER.

This is the only Spray Pump that will properly spray whitewash without clogging. It is constructed of heavy galvanized iron, with brass tops and valves. Large air chambers and ball valves, the pressure maintaining a continuous stream or spray not affected by the upward stroke. Can also be used for washing windows, buggies and sprinkling lawns, flowers, etc. Galvanized iron, \$2.25, brass, \$2.75.

GLASS TANK SPRAYER

A general utility sprayer, adapted to all liquid Disinfecting and Poison Preparations for Orchard, Field and Garden, as well as for use on Cattle, Horses, Sheep, Swine and Poultry.

Capacity One Quart.

Price 65 cents.

1908 Pattern.

CHAMPION DRY POWDER GUN.

For applying dry Paris Green, Hellebore, etc., to plants and trees, the powder being evenly distributed over a wide space with the least possible waste. The quantity may be regulated as desired. Price \$7.50.

Price \$7.50.

"POMONA" SPRAY PUMP.

"Pomona" Spray Pump has great power and capacity. No leather packings. All working parts are bronze, including plunger, gland, valves, valve seats, &c. Plunger is outside packed. Valves are easily accessible for examination. Air chambers are steel. Powerful lever with adjustable stroke. Pump projects but little above the top of the barrel. Price with Barrel and Hose complete, \$20.00.

Does not require constant pumping. Has an automatic thumb lever valve. Most practical for Orchard, Field and Garden work.

The "Lowell" Blow Powder Sprayer is fitted with a Ball Valve which is positive in its action, preventing any powder being drawn back into the pump—thus insuring at all times a perfect working machine. The powder can hold one quart and has a two inch screw cap opening in back for filling. Adapted to Paris Green, Slug Shot, Bug Finish, Lice Powder and all Dry Powder Disinfectants and Poisons. Aluminum finish. **Caution:**—Powder must be thoroughly dry. Price 50c.

The Lowell Fountain Compressed Air Sprayer. One pumping will expel entire contents of tank and is sufficient to spray 2,000 plants. Spraying nozzle may be reversed to spray under side of bushes and plants. The Automatic Thumb Lever Valve is at all times under complete control of operator—hence none of the solution is wasted. It saves its cost in making a given amount of compound do so much more work. An Adjustable Shoulder Strap and Tree Attachment with suitable couplings for orchard and tree spraying, furnished with each machine. Aluminum finish. Capacity 3 Gallons. Price \$4.98.

THE BLANCHARD CHURN

The body of the Churn being Cylindrical, all the cream is churned alike and at the same time making streak butter impossible. Those who desire to make butter on what is called the "granular system" can do it perfectly with the Blanchard Churn. If we were disposed to follow the example of some of our competitors, we could add page after page of "unsolicited" testimonials as to the accuracy of these claims; but we simply point to our past record and to the absolute guarantee under which all our sales are made.

High-Grade POULTRY AND PIGEON SUPPLIES

Our Poultry foods are all manufactured from sound and wholesome grains and seeds. No waste by-products or inferior material of any kind are used in their manufacture. The **Best** Poultry supplies are really the cheapest, the best suited for the taste, the best calculated to bring you success. In no line of work is this more true than in poultry raising.

Chicken Starter.

A Primary Food for Chicks up to Three Weeks Old.

A high grade mixture of sweet, sound re-cleaned cracked grains and seeds so proportioned to the needs of the growing chick that it will be fully nourished. Similar to Chick Food, but graded smaller.

50 lb. Bag at \$1.55. 100 lb. Bag at \$2.75.

CRESCENT CHICK FOOD.—A Complete Chick Food up to Eight Weeks Old.

Crescent Chick Food is a mixture of many different grains and seeds, best adapted to chick feeding, always ready, no waste, no dirt, the produce of flesh and muscle forming element, is maintained to a high degree to supply the needs of the rapidly growing bird.

50 lb. Bag \$1.38. 100 lb. Bag at \$2.50.

Developing Food.

A special food for properly maturing young chicks after they are weaned from Chick Food up to the time for feeding scratching food and laying food. Developing food is dry grain and may be fed from hoppers, but better results may be had by scattering broad cast.

50 lb. Bag \$1.38. 100 lb. Bag at \$2.50.

Queen Poultry Mash.

A carefully selected mixture of ground feed made from the choicest sound, sweet and wholesome grain. It is carefully prepared and contains ingredients in proper proportions essential to the health and growth of the fowl and especially for the production of eggs.

50 lb. Bag at \$1.25. 100 lb. Bag at \$2.25.

Laying Food.

A ground food ready for the mash made up of carefully selected materials that will greatly increase the production of eggs. The use of this food would greatly increase the profits of the poultry raiser and cannot be too highly recommended.

50 lb. Bag at \$1.30. 100 lb. Bag at \$2.25.

Scratch Food.—For Grown Fowls, Suitable at all Seasons.

A carefully selected mixed balanced ration of grains, cracked and whole seeds, etc., adapted to the vigorous growth of fowls and production of eggs. Scratching food should be scattered in the litter the first thing in the morning and at noon, late in the afternoon feed all the mash food they will clean up.

50 lb. Bag at \$1.15. 100 lb. Bag at \$2.25.

Beef Scrap.—Standard Meat Food for Poultry of all Ages.

High Protein Beef Scraps is an especially valuable meat food for poultry and gives very satisfactory results. Any kind of Beef Scraps will not answer. Poor Beef scours the birds and often injures them, when the first is used the results are uniformly good. Do not fail to buy your supply from a reliable source.

100 lb. Bag at \$3.25.

Pigeon. Food.

A properly balanced mixture of a number of grains and seeds so proportioned as to keep the old birds in good condition and help the young ones grow strong and healthy. Nothing but the highest quality of grains and seeds are used. There is no waste to our Pigeon Food. The birds eat it up cleanly. Prices, 50 lb. bag, \$1.50; 100 lb. bag, \$2.50.

Charcoal.

Prepared expressly for Poultry, absolutely pure, essential to health of Fowls and aids to digestion. 1 lb., 3c.; 5lbs., 15c.; 10 lbs., 30c.; 25 lbs., 63c.; 100 lbs., \$1.85.

Ground Bone. Fine and Granulated.

Ground Bone is made from the Dry Bone and contains Phosphates, Lime and Protien and is especially valuable as an egg producer. 5 lbs., 25c.; 10 lbs., 40c.; 25 lbs., 88c.; 100 lbs., \$2.50.

Cut Alfalfa Clover.

A Poultry Food that aids digestion and assists in the assimilation of grain foods, thereby giving better results at lower cost. Among green foods, Alfalfa stands at the top. When fed it should be scattered and left for the fowls to eat at will. 5 lbs., 20c.; 10 lbs., 35c.; 25 lbs., 75c; 50 lbs. \$1.10; 100 lbs. \$1.90

Alfalfa Meal.

Mealed Alfalfa is a boon to poultrymen. It is used in a mash for small chicks as well as to mature fowls. If more of this meal was fed to young chicks there would be less mortality. 5 lbs., 20c.; 10 lbs., 35c.; 25 lbs., 75c.; 50 lbs., \$1.25.

Cut Red Clover.

Cut Red Clover used same as cut Alfalfa, and is regarded by some as of similar value. 5 lbs., 15c.; 10 lbs., 30c; 25 lbs., 75c.; 50 lbs., \$1.00; 100 lbs., \$1.75.

Crushed Oyster Shells.

It is needless for us to enlarge on the value of Oyster shells for poultry. Every poultryman realizes their importance as an egg maker and general promoter of good health. 100 lb. bag, 60 cents.

Crystal Grit.

We supply 4 sizes of Grit No. 4 for Brooder Chicks; No. 3, for Pigeons; No. 2, for half-grown Chicks; No. 1 for Hens, Turkeys, Ducks and Geese. 100 lb. Bag, 70 cents.

Seeds and Grains.

We carry a full line of the following: Wheat, Barley, Millet, Hemp, Sunflower, Kafir Corn, Canadian Peas, Cracked Rice, Linseed Meal, Canary Seed and Mixed Bird Seed, Buckwheat, Rye, etc.

Grit and Shell Box.

Price 50c.

Sanitary Grit and Shell boxes make a material saving on Grit and Oyster Shells, Ground Bone, Charcoal or Poultry Foods. They are thoroughly practical self feeding boxes made out of heavy galvanized iron. 50 cents each.

Sanitary Dry Food Box.

Dry Food Hopper is a practical labor and food saving device for feeding dry grain, whole or ground. 75 cents each.

Price 75c.

Stone Poultry Fountains.

1 qt., 20c.; 2 qt., 25c.; 4 qt., 30c.; 8 qt., 35c

Brooder Lamp.

**ZERO INCUBATOR AND
BROODER LAMP.**

RELIABLE SPRING LEVER POULTRY PUNCH.

If you keep a record of your chicks, of the different breeds, hatches, strains, etc., there is no better, quicker or easier, way than by using our latest invention, the Reliable Spring Lever Poultry Punch, for marking the web between

the toes. Hundreds of private marks can be made when your chickens are hatched, and a record kept, so they can flock together until maturity, and then be separated by these marks. We make the Reliable Poultry Punch in one size only, which can be used on fowls of any age. Price 25 cents.

RELIABLE EGG CARRIER

Is made with an adjustable cover and a patent combination lifter and fastener, which is far superior to other similar devices now on the market. There is no more durable or better carrier made. A necessity to all poultrymen.

Prices are as follows:

9 doz. size, each.....	\$0 45; per doz., \$3 50
12 doz. size, each.....	50; per doz., 4 00

GEM EGG TESTER.

GEM FOLDING EGG TESTER

A tester consisting of pasteboard and a strip of mirror. The tester has been in common use for years, is very popular and fills a long-felt want for something accurate and cheap. Price 50c.

METALLIC EGG TESTER

We manufacture what is probably the neatest and surest metallic egg tester on the market. It consists of a metal lamp chimney and tubular projection. Is made in two parts so the cubular projection can be removed and chimney used separately. 50c. each.

Philadelphia
Chick Marker
Similar to above
25 Cts.

Improved Champion Leg Bands—Aluminum.

This is a well known band, is one of the best on the market, is light and strong being held by a double lock, is impossible to come off. 15c. per dozen; 25 for 20c.; 50 for 35c.; 100 for 60c.

Bands for marking Pigeons.

SUPERIOR LEG BANDS.

This is the best and most practical wire leg band invented. It is made from spring wire with aluminum tag. Easily adjusted and will not injure fowls leg. Price 15c. per dozen; 2 for 20c.; 50 for 35c.; 100 for 60c.

LICE POWDER.

Rust's and Lambert's.

Recommended by Poultry Editors, Judges and Breeders everywhere, will not hurt the fowls or affect the flavor of the eggs when dusted with it. 6 oz. Pkg., 10c.; 16 oz. Pkg., 25c.; 48 oz. Pkg., 50c.

ROSE NICOTINE LICE POWDER.

This Lice Powder is powdered tobacco, containing a definite amount of Nicotine, making it the most powerful Insect and positive destroyer known. Use as you would any Lice Powder by dusting on feathers and around hen house. 1 lb., 10 c.; 4 lb. pkg., 25c.; 25 lbs., \$1.00.

LICE KILLING MACHINE.

This popular machine does the work in an hour that takes a day to do by hand. It is a great invention for poultrymen, saving both time and insect powder. By using this machine and Insect Powder there is no need of your chickens having lice. The Reliable Lice Killing Machine, which weighs but 12 pounds without being crated for shipment, will kill any body lice on chicks or old fowls by simply placing them in the machine with one teaspoon heaped full of Reliable Insect Powder scattered lengthwise over the lot in cylinder. By turning the crank slowly, several times the work is done.

No. 1, for Chicks, \$2.50; No. 2, for Poultry, \$3.25; No. 3, for Turkeys, \$4.00.

LIQUID LICE KILLER.

Lice Killing Machine.

This is a highly concentrated preparation containing no kerosene or other inflammable ingredients. It is wonderfully efficacious and its effects are so lasting that it does not have to be used so often as many preparations, making it more satisfactory and more economical. Price, 1 qt. can, 35c.; 2 qt. can, 60c.; 4 qt. can, \$1.00.

LOWELL SPRAYER FOR SPRAYING LIQUID LICE KILLER.

It discharges the preparation in a very fine spray without waste, and uses very little. Price per Gal. Iron, 45c., Brass, 75c.

PURE SULPHUR FUMIGATING CANDLE.

Pure Sulphur Fumigating Candles are easy to light, easy to extinguish, safe to use and produce a vapor deadly to all infectious diseases, germs and insect life.

If you want to kill disease germs in your dwelling—lice, mites and disease germs in your poultry house, light one of these little candles and close up the house or room tight for three or four hours. Be careful to remove all the fowls from the house, or they will suffocate. 5c. and 10c. each.

FRENCH POULTRY KILLING KNIFE.

Made of finely tempered instrument steel with nickel handle and will last a life time, 50 cents each.

CYPHERS INCUBATOR THERMOMETERS.

Many hatches in incubators fail because of inferior thermometers and large numbers of chickens are lost or buried by defective and worthless thermometers. We recommend the above as the best on the market for the price. Price 60 cents each.

SPRATT'S POULTRY FOOD

A specially prepared and highly nutritious food, used at all the principal shows all over the world. The most successful food for all kinds of poultry.

One lb., 10c.; 25 lbs. at 7c.; 100 lbs., \$6.00.

Prices on Application.

Market Prices.

TAR ROOFING PAPER.

This paper is manufactured by a reliable manufacturer, is watertight, durable, strong, impervious to air and is not affected by heat or cold. 2 Ply Roll, 75c.; 3 Ply Roll, 98c. Nails and Tins for above.

WIRE CHICKEN NESTS.

These nests are strongly made from heavy Japanned Steel wire. They are intended to fasten to the wall with screw, hooks, there is no room on them for lodgement of lice vermin of any kind, easy to keep clean and far superior to wooden boxes. Price each, 15c.; per dozen, \$1.50.

EARTHEN PIGEON NESTS.

Should be used by every pigeon fancier. Made of red clay, with heavy bottom to prevent upsetting. Size about 2 inches in diameter. Price 10c. each; 12 for \$1.00.

Rust's Egg Producer.—So exact are the proportions of Rust's Egg Producer that everything therein is utilized by fowls and nothing goes to waste. This makes it the most economical as well as the most perfect producer of eggs known. Its cost being only one cent every 2 or 3 weeks and this when fed every day.

Don't Blame the Hen, Use Rust's Egg Producer.—1 lb. box 25c., 2½ lb. box 50c., 6 lb. box \$1.00, 10 lb. box \$1.50, 25 lb. box \$3.50.

Rust—Haven's Condition Powder.—Prevents and cures Gapes, Fowl Cholera, Diarrhoea, Indigestion, Leg Weakness, Catarrh and other diseases of fowls. It is a dead shot for Gapes and Poultry Cholera if directions are followed. 13 oz. 25c.; 32 oz. 50c.; 5 lb. box \$1.00; 8 lb. box \$1.50; 20 lb. box \$3.50.

Soluble Roup Cure.

This is one of the newest and best cures on the market, it is dissolved in water and can be given to the fowls, it is also a good preventative and has had a very rapid sale so far. 25 cents a package.

Roup Pills.

These Pills are wonderfully effective in Roup, Catarrh, Distemper, Pigeon Diseases, etc. Price, 25c.

MANN'S PAT. BONE CUTTERS

Are absolutely the best Bone Cutters ever sold to the public and they are by far the most successful Hand and Power Machine on the market today for cutting green bones.

No. 5 B, \$8.00. No. 5 BM with legs, \$10.50. No. 7 with legs, \$12.00.

WHITEWASH SPRAYER.

This is the only Spray Pump that will properly spray whitewash without clogging. It is constructed of heavy galvanized iron with brass tops and valves. Large air chamber and ball valves, the pressure maintains a continuous stream or spray, not affected by the upward strokes.

Galvanized Iron, \$2.50. Brass, \$3.00.

STANDARD FLY AND GERM KILLER.

Protects Cows and Horses from the torture of flies. It is a comfort to cows and milkmen and will cause a tenfold increase in the amount of milk. It is a liquid preparation designed for keeping flies from stock and is perfectly harmless. Put up in one gallon jugs, 60c. per gallon.

For applying the above use

THE LIGHTNING INSECT EXTERMINATOR

which discharges the preparation in a firm, broad spray, without waste and using but very little. Fifty cows can be sprayed in a few minutes, producing instant relief. One application in the morning and one in the evening will keep your cows and horses in perfect comfort and good condition. Price of Exterminator, 45c.

No. 7 Mann.

No. 5 B M Mann.
